Ancient Britain. Archaeologists working in Norfolk in the early 21st century discovered stone tools that suggest the presence of humans in Britain from about 800,000 to 1 million years ago. These startling discoveries underlined the extent to which archaeological research is responsible for any knowledge of Britain before the Roman conquest (begun ad 43).

Romans. So many extraordinary archaeological discoveries (many of them involving the author) have been made since the early 1970s that our whole understanding of British prehistory needs to be updated. So far only the specialists have twigged on to these developments; now, Francis Pryor broadcasts them to a much wider, general audience. Aided by aerial photography, coastal erosion (which has helped expose such coastal sites as Seahenge) and new planning legislation which requires developers to excavate the land they build on, archaeologists have unearthed a far more sophisticated life among the Ancient
