he electrical processes in the human brain are like a jazz band; in the case of illness, the musicians are confused and the music is discordant. Brain-wave biofeedback can reset the pace and help...

A Symphony in the Brain - The New York Times

Brain scientists often liken brain function to a symphony. "If you watch an orchestra perform, once the performance starts, the cello player is looking at the person next to him, or her, not the...

A symphony of neuroscience: Understanding brain ...

Yet the brain is like a symphony. Or, perhaps, like a symphony of symphonies, millions of times more complex and more interconnected than any piece of music anyone could ever compose. Mozart's own brain was way more complex than any music he wrote. The 'bits and pieces' way of thinking and talking is inappropriate, unhelpful and insidious.
