In Mayda, a post-apocalyptic city off the coast of Portugal, a brilliant young engineer and a mysterious recluse race to build a flying machine, unaware that powerful enemies will kill to possess--or destroy--their new technology.

FEVER CRUMB is a stunning, stand-alone prequel to Philip Reeve's brilliant science fantasy quartet. It is set many generations before the events of Mortal Engines, in whose dazzling world huge, predatory cities chase and devour each other. Now, London is a riot-torn, ruinous town, clinging to a devastated landscape and hiding an explosive secret. Is Fever, adopted daughter of Dr Crumb, the strange key that will unlock its dangerous mysteries?

In a future land once known as Britain, nomad tribes are preparing to fight a terrifying enemy - the first-ever mobile city. Before London can launch itself, young engineer Fever Crumb must journey to the wastelands of the North. She seeks the ancient birthplace of the Scriven mutants. In the chaotic weeks before battle begins, Fever finds a mysterious black pyramid. The extraordinary secrets it contains will change her world forever. The seventh awe-inspiring adventure in the World of Mortal Engines series by a superb writer at the height of his powers.

Called "imaginative, inventive, and exciting" in a starred review from Kirkus, the second adventure in the Fever Crumb trilogy is now in paperback. Two years ago, Fever Crumb escaped the war-torn city of London in a traveling theater. Now, she arrives in the extraordinary city of Mayda, where buildings ascend the cliffs on funicular rails, and a mysterious recluse is building a machine that can fly. Fever is the engineer he needs -- but ruthless enemies will kill to possess their secrets. In this gripping sequel to Fever Crumb, master storyteller Philip Reeve creates a riveting story that is unforgettable and delightful at every fast-paced, breathless turn.

Long before the days of Mortal Engines, London is poised on the brink of apocalypse. Huge armoured fortresses are advancing across the wastelands - a new and terrifying kind of enemy. The city is days away from ruin. Buried in London's past is a secret that may save it. But only one key can unlock it - an odd-looking orphan named Fever Crumb. Set centuries before the events of Mortal Engines, Fever Crumb's paralysing mission will make your heart stop.

MORTAL ENGINES launched Philip Reeve's brilliantly-imagined creation, the world of the Traction Era, where mobile cities fight for survival in a post-apocalyptic future.The first instalment introduces young apprentice Tom Natsworthy and the murderous Hester Shaw, flung from the fast-moving city of London into heart-stopping adventures in the wastelands of the Great Hunting Ground. "No 11-to-16-year-old should miss the superbly imagined debut novel from Philip Reeve" - The Times "This big, brave, brilliant book combines a thrilling adventure story with endless moral conundrums" - Guardian

Return to the world of Mortal Engines in this new book of three short stories about the rebellious young aviatrix, Anna Fang, illustrated by Ian McQue. A key character in the Mortal Engines book and film, this is your chance to learn more of her past. Night Flights includes Traction City, the 2011 World Book Day Book by Philip Reeve.

The classic Steampunk novel from the creator of the term itself - thirty years ago this month. When George Dower's father died, he left George his watchmaker's shop - and more. But George has little talent for watches and other infernal devices. When someone tries to steal an old device from the premises, George finds himself embroiled in a mystery of time travel, music and sexual intrigue. File Under: Steampunk

Welcome to the dark side of Camelot. Gwynna is just a girl who is forced to run when her village is attacked and burns to the ground. To her horror, she is discovered in the wood. But it is Myrddin the bard who has found her, a traveler and spinner of tales. He agrees to protect Gwynna if she will agree to be bound in service to him. Gwynna is frightened but intrigued--and says yes--for this Myrddin serves the young, rough, and powerful Arthur. In the course of their travels, Myrddin transforms Gwynna into the mysterious Lady of the Lake, a boy warrior, and a spy. It is part of a plot to transform Arthur from the leader of (con't)

It was a dark, blustery afternoon in spring, and the city of London was chasing a small mining town across the dried-out bed of the old North Sea. So begins Philip Reeve's Mortal Engines, the first book in his epic post-apocalyptic series of giant motorized cities on wheels. But how did the world end up like this? What led to the downfall of our civilization, and to the rise of the Traction Cities that roam the Great Hunting Ground to attack and devour each other? Now, for the first time, discover the untold future history of Traction. This lavishly illustrated book contains incredible tales of fearsome Zagwan warriors riding war-zehbras into battle, daring air-traders flying the Bird-Roads in search of adventure, and the mysterious plague-ridden wasteland of the Dead Continent that was formerly known as 'North America'. This definitive companion guide includes detailed maps, fascinating character profiles, and stunning colour illustrations from incredible artists, including Ian McQue, David Wyatt, Aedel Fakhrie, Maxime Plasse, Rob Turpin, Philip Varbano and Amir Zand. MORTAL ENGINES is soon to be a major motion picture.
