Christopher Clapham shows how an initially supportive international environment has - as a result partly of political and economic mismanagement within African states themselves, partly of global developments over which they had no control - become increasingly threatening to African rulers and the states over which they preside.

Africa and the International System by Christopher Clapham
Political instability in Africa may owe much of its cause to internal factors, however the interpenetration of internal and external factors especially geo-political and economic interests of the international community constantly play a significant role in undermining the very processes and institutions that are expected to nurture democracy and to instil a sense of stability for societal development in Africa.

Political instability in Africa Where the problem lies and ...
Equally frequently, this uniform vision of African states is one of political decay, incompetence, and disintegration, for which the remedy is external intervention and the substitution of the authority of international agencies for that of African governments.

Understanding African politics
In contrast to the conventional approach of studying how external actors impacted on Africa's international relations, this book seeks to open up a new approach, focusing on the impact of African political actors on international politics. It does this by analysing African agency - the degree to which African political actors have room to manoeuvre within the international system and exert influence internationally, and the uses they make of that room for manoeuvre.

Part 2: The influence of politics on the South African economy - LISTEN BELOW Describing the current political landscape in South Africa as "noisy and disruptive", Bishop talks about the Finance Minister's growth plans, the impact of failing state-owned-enterprises and how we can achieve fast, sustainable growth.

The influence of politics on the South African economy
The Horn of Africa is undergoing far-reaching changes in its external security environment. A wide variety of international security actors—from Europe, the United States, the Middle East, the Gulf, and Asia—are currently operating in the region. As a result, the Horn of Africa has experienced a proliferation of foreign military bases and a build-up of naval forces.
