The aim of the aged care system, as described by the Productivity Commission (2018), is to promote the wellbeing and independence of older people (and their carers), by enabling them to stay in their own homes or by supporting their care needs in residential care. This overall aim is implicit in the Aged Care Act 1997. The Act also outlines objectives of equitable access on the basis of need, high-quality care to meet individuals ' needs, and protection of the health and wellbeing of care ...

Aged care - Australian Institute of Health and Welfare

Aged Care in Australia, is the provision of services to meet the unique needs of older people in Australia. It includes both residential aged care as well as services provided in the home such as personal care, domestic assistance, home nursing, nutrition and meal preparation, respite services, continence management, mobility & dexterity assistance, transport, social support and the provision of equipment and aids.
