and only 5.7% of the students get a 5. A lot of students who don't pass the exam are often A students who understand physics, but the plug-n-chug type of problems they see in class do not prepare them for the AP Physics 1 free response questions. For the last eight years, the majority of students I tutored for the AP Physics test obtained a score between 3 and 5. My secret is simple: I do rapid content review but more importantly, I walk students through the process of answering free response questions. The free response questions are unique; most AP physics courses and books will not properly prepare you for them. This book will teach you the patterns of the AP test by providing guided solutions to prior AP Physics 1 exams.
