Ansi Api Standard 607 - Reliefwatch
The API 607 standard is written by the
refinery (API downstream segment). API 607's
fourth edition stated that the standard was
for soft-seated quarter-turn valves. By the
seventh edition of this standard, the scope
of coverage changed in wording to "quarter-
turn valves and other valves with nonmetallic
seating." API 6FA is under the jurisdiction
of the API Subcommittee on Valves and ...

The Past, Present and Future of Fire Testing
API 607 scope covers valves that are class
rated. It does not cover valves with a
pressure rating such as 2000 or 3000 psi.
These valves are covered by API 6FA fire test
standard. 607 Fourth Edition, May 1993 4.4.8
607-I-04/01 Will a fire test to API 607, 4th

recruitment.cdfipb.gov.ng
API 607 Third edition was almost identical to
that of BS 6755 Part 2; consequent testing to
either of the above would enable the valve to
be certified to both BS and API. However the
significant single amendment, which separated
the API standard from that of the BS, was the
addition of a valve operation and leak test.
The valve has to be operated in API 607 4th
Ed from the closed to fully open ...
