The Common Core State Standards initiated major changes for language arts teachers, particularly the emphasis on "informational text." Language arts teachers were asked to shift attention toward informational texts without taking away from the teaching of literature. Teachers, however, need to incorporate nonfiction in ways that enhance rather than take away from their teaching of literature. The Using Informational Text series is designed to help. In this fourth volume (Volume 1: Using Informational Text to Teach To Kill a Mockingbird; Volume 2: Using Informational Text to Teach A Raisin in the Sun; Volume 3: Connecting Across Disciplines: Collaborating with Informational Text), we offer challenging and engaging readings to enhance your teaching of Gatsby. Texts from a wide range of genres (a TED Talk, federal legislation, economic policy material, newspaper articles, and 1920s political writing) and on a variety of topics (income inequality, nativism and immigration, anti-Semitism, the relationship between wealth and cheating, the Black Sox scandal and newspaper coverage, and prohibition) help students answer essential questions about F. Scott Fitzgerald's novel. Each informational text is part of a student-friendly unit, with media links, reading strategies, vocabulary, discussion, and writing activities, and out-of-the-box class activities.

The only authorized edition of the twentieth-century classic, featuring F. Scott Fitzgerald's final revisions, a foreword by his granddaughter, and a new introduction by National Book Award winner Jesmyn Ward. Nominated as one of America's best-loved novels by PBS's The Great American Read. The Great Gatsby, F. Scott Fitzgerald's third book, stands as the supreme achievement of his career. First published in 1925, this quintessential novel of the Jazz Age has been acclaimed by generations of readers. The story of the mysteriously wealthy Jay Gatsby and his love for the beautiful Daisy Buchanan, of lavish parties on Long Island at a time when The New York Times noted "gin was the national drink and sex the national obsession," it is an exquisitely crafted tale of America in the 1920s. The Great Gatsby is a 1925 novel written by American author F. Scott Fitzgerald that follows a cast of characters living in the fictional towns of West Egg and East Egg on prosperous Long Island in the summer of 1922. Many literary critics consider The Great Gatsby to be one of the greatest novels ever written. The story of the book primarily concerns the young and mysterious millionaire Jay Gatsby and his quixotic passion and obsession to reunite with his ex-lover, the beautiful former debutante Daisy Buchanan. Considered to be Fitzgerald's magnum opus, The Great Gatsby explores themes of decadence, idealism, resistance to change, social upheaval and excess, creating a portrait of the Roaring Twenties that has been described as a cautionary[a] tale regarding the American Dream. That version of the 9-12 standards you wish you had If you're a high school teacher, no need to despair. Jim Burke has created a Common Core Companion for you, too. This time positioning the grades 9-10 standards alongside 11-12, it's every bit the roadmap to what each standard says, what each standard means, and how to put that standard into practice across subjects. Jim clearly lays out: - Key distinctions across grade levels - Different content-area versions of each standard - Explanations of each standard, with student prompts - Content to cover, lesson ideas, and instructional techniques - Glossary and adaptations for ELL students

This study explores the vestiges of primitive sacrificial rituals that emerge in a group of canonical modernist novels, including The Turn of the Screw, Heart of Darkness, The Good Soldier, The Great Gatsby, and To the Lighthouse. It argues that these novels reenact a process that achieved its seminal expression in the Genesis story of The Binding of Isaac, in which Abraham, having been prevented from sacrificing Isaac, offers up a ram in his place. Modernist reenactments of this pattern present narrators who, although vigorously protesting the victimization of certain characters, unflinchingly seize upon others as their surrogates. Each novel is designed in such a way, however, as to resist the reconstruction of a sacrificial ritual to which its narrator is prone. The resulting tension between the binding and unbinding of ritual persecution dramatizes the paradox that we can neither believe convincingly in the guilt of our scapegoats nor imagine a society that has dispensed with them entirely. Thomas Cousineau is Professor of English at Washington College in Maryland.
