So, does Astra Lost in Space Vol. 5 botch the landing? Yes and no. On one hand, the final chapters definitely suffer from a major loss of narrative steam. With that said, everything prior to them is excellent. Shinohara's line-work is clean and pleasing to look at throughout, and there's a lot of effective suspense.

My main qualm with this volume's artwork is just that Yun-hua's body is sometimes rendered very awkwardly. Her head is often smaller than her bust to the extent that it looks unintentionally comical in its ridiculousness. Overall, Astra Lost in Space Vol. 3 is a nearly flawless read. Several characters receive game-changing development, the series's intrigue elements reach new heights, and the artwork is great

Thus far, Astra Lost in Space has impressed in its iterative quality: each succeeding volume surpasses its predecessor in quality, so it goes without saying this is the finest volume of the series yet. Having read the entire series when it released for free on VIZ's site, I'll leave it to you to discover if that ascension persists for the five-volume journey, but as it stands now, it's a definite page-turner that grips me well after serialization.

Astra: Lost in Space is a genre crushing story. It has so much going on that I wouldn't dare say it's just "a sci-fi murder mystery," because it's not.

Even the lone wolf of the group, Ulgar, starts to open up! That is, until he suddenly pulls out a gun and threatens to kill Luca! Could Ulgar be the traitor the group has been looking for?!

Survival Of The Species Escorted about the facilities of the C-Project laboratories like the prize Mikage breeding-stock she is, Ceres uses the existence of Tōya's child, now thriving inside her, to taunt the monomaniacal Kagami. An outraged Kagami tries to kill Ceres, but will another's sacrifice be enough to protect this "First Mother" of all Celestial Maidens? Aya, initially horrified by Ceres' claim to be "no different" than her relative, Kagami, eventually receives from Ceres the truth--about the past, about how things really were between her and the Progenitor...and about the shocking nature of the mysterious ten'nyo or "celestial maidens" themselves. -- VIZ Media

Monster Their search for the celestial robes or "hagoromo" resumed, Aya and Yūhi transfer to (yet another) new school. But, here, their problems are more serious than just making new friends. Aki--or, should we say, the "Progenitor"--is on campus and making Aya's life hell. And then there's a kind of actual hell itself, in the form of a beneath-school passageway, where a...creature...is said to roam. Is there any truth to Aki's claim that the monster is the daughter of a priest who made the grave error of angering a celestial maiden or "ten'nyo" hundreds of years ago...? Speaking of ten'nyo, Aya has

vowed to never release Ceres again. But Aki has made his own vow...and he will claim Ceres--his woman--one way or the other.... -- VIZ Media

Whatever You've Done, Whoever You Are Reunited with her beloved in both passion and purpose, Aya decides to join Tôya in the quest for his real memories. A visit to an island where Aya spent a summer in childhood promises one of their first real leads to that end--turns out Aya and Tôya met long before, back when she was a little girl with a seashell, and when he...looked just exactly the same as he does now! Despite not knowing who or even what Tôya may be, the two decide to travel back to kindly Doctor Kurozuka in Niigata Prefecture to make a life for themselves there. But Kagami is still on the hunt for Ceres' hagaromo, and is in fact even closer to it than ever before. For every great advance, there must be an equally great sacrifice--how will Chidori figure into it? -- VIZ Media
