STK Tip: Using the Attitude Simulator Attude Determination And Control System

This paper presents the flight results and lessons learned from the attitude determination and control system (ADCS) flown on the ALSAT-2B satellite, an Earth observation microsatellite, by analysing ...

In-orbit results from the attitude determination and control system of ALSAT-2B

It's another milestone event for the UAE as the second CubeSat, designed and built by students, is no ready to implement and test software modules ...

Khalifa University students' DhabiSat deployed into its orbital slot

These include ADCS (Attitude Determination and Control System), TT&C (telemetry, track, and command), C&DH (command and data handling), and an EPS (electrical power system). Each of these building ...

Open Source CubeSats Ease The Pain Of Building Your Own

Attitude determination is accurate to 0.5° on ... GN&C functions will be handled by Motion Control System within the US Lab module. The Service Module will continue to play a role in ISS ...

Space Station User's Guide

Subsystems including communications, systems, attitude determination and control, power generation, power management systems, and command and data handling systems are flight verified in these ...

Spacecraft Verification Facilities

Attitude is an established way of thinking or feeling about something while behaviour refers to the way one acts or conducts oneself especially towards others. It is, therefore, imperative to note ...

COVID-19: Negative attitude aggravating current situation

(Bill Stafford/NASA) Cooper and her colleagues do mission planning, analysis, and real-time operations of the station's motion control system. The job: Attitude Determination and Control Officer. The ...

We Control the Space Station

Sir Chettur Sankaran Nair was known for being a passionate advocate for social reforms and a firm believer in the self-determination of India.

Explained: Who was Sir Chettur Sankaran Nair, who took on the British in their own courts?

The NTS-3 mission is to advance technologies to responsively mitigate interference to position, navigation and timing (PNT) capabilities, and increase system resiliency ... power, attitude ...

AFRL leaps forward in NTS-3 spacecraft development

The ISARA mission will demonstrate a high bandwidth Ka-band CubeSat communications capability that is ready for immediate infusion into commercial, government and military systems. For a modest ...

Integrated Solar Array & Reflectarray Antenna (ISARA)

What steps will we take towards a more equitable health system? Despite significant flaws exposed by the pandemic, the crisis also illuminated the resilience, determination, and dedication of ...

How pharmacies can help achieve health equity

DhabiSat's successful deployment marks another milestone in UAE's space exploration Supplied Abu Dhabi: DhabiSat, a cube satellite (CubeSat) made by students at Khalifa University of Science and ...

Miniature satellite made by UAE students now orbiting Earth

Foreign policy refers to a set of principles and guidelines that inform a nation's attitude towards certain aspects of international relations.

Zimbabwe: Focus On Zimbabwe's Foreign Policy - What Is It?

And it's not a big leap to guess that it may be created on the designer's own schedule, given the emphasis on self-determination and given Ms. Philo's history of chafing against the demands of the ...

Phoebe Philo Is Returning to Fashion With Her Own Brand

Students applying for admission must meet the general admission requirements to graduate study and satisfy two of the following criteria: A minimum GRE score of 150 on verbal reasoning and 146 on ...

Space Systems Engineering - MS

So its policy then was influenced by the respect for self-determination ... why the attitude across the Limpopo shifts with the direction of the wind, depending on who is in control.
