Biopsychology - Pearson

Biopsychology presents a clear, engaging introduction to biopsychological theory and research through a unique combination of biopsychological science and personal, reader-oriented discourse. Original author John Pinel and new co-author Steven Barnes address students directly and interweave the fundamentals of the field with clinical case studies, useful metaphors, and memorable anecdotes that make course material personally and socially relevant to readers.

Edwards, created many of these illustrations exclusively for this text. While some biopsychological textbooks emphasize neurophysiology, neurochemistry, and neuroanatomy, Biopsychology gives top billing to coverage of behavioral research. The authors stress that neuroscience is a team effort and that the unique contribution made by biopsychologists to this effort is their behavioral expertise.
