Henry Blair was the only person to be identified in the Patent Office records as "a colored man." Blair was the second African American inventor issued a patent. Blair was born in Montgomery County, Maryland, around 1807. He received a patent on October 14, 1834, for a seed planter, and a patent in 1836 for a cotton planter.

**Early History of African American Inventors**

Often regarded as one of the most famous black inventors ever, McCoy was credited for 50 inventions over the span of his career. In an effort to improve efficiency and eliminate the frequent stopping necessary for lubrication of trains, McCoy devised a method of automating the task.

Black Inventors, Crafting Over 200 Years of Success, highlights the work of Black inventors from over seventy countries. The author, Keith C. Holmes, has spent more than twenty years researching Black inventors from countries that include Australia, Bahamas, Barbados, Canada, Cuba, Ethiopia, France, Germany, Ghana, Dominican Republic, Guadeloupe, Guyana, Haiti, Italy, Jamaica, Japan, Kenya, Mozambique, Nigeria, St. Vincent, South Africa, Tanzania, Trinidad and Tobago, the United Kingdom and the United States. Without inventions, innovations, financial resources, materials, muscle and labor saving devices conceived by Black inventors. Among many other inventions, pre-enslaved Africans, developed agricultural tools, building materials, medicinal herbs, cloth and weapons. Although historical documents emphasize that millions of Black people arrived in Canada, the Caribbean, Central and South America and the United States under slavery's yoke, it is relatively unknown that thousands of Africans and their descendants developed numerous labor-saving devices and inventions that spawned companies which generated money and jobs, worldwide. While most authors focus primarily on American and European inventors, Keith Holmes introduces inventions, both past and present, that Black people, developed and patented globally and multiculturally.Black Inventors, Crafting Over 200 Years of Success, also features early Black inventors from virtually every state in the US. It includes details about the first Black inventor who obtained a patent in both the Caribbean and the United States. To date, seventeen African American men have been inducted into the National Inventors Hall of Fame. Two inventors, Jan E. Matzeliger, (Surname) and Elijah McCoy, (Colchester, Canada) were not born in this countryThe material available in this book, one of the first to address the diversity of black inventors and their inventions from a global perspective, effectively gives the reader, researcher, librarian, student, and teacher the materials they need to understand that the Black inventor is not only a national phenomenon, but also a global giant.

While twins Ella and Herbie help the handyman Mr. Midal work on their new home, he tells them about such inventors as Granville Woods, Dr. Henry T. Sampson, and James West, giving them a new view of their heritage as African-Americans.

Meet the black inventors who lived their dreams—from the early years to modern times Benjamin Banneker Andrew Jackson Beard George E. Carruthers, Ph.D. George Washington Carver Michael Croslin, Ph.D. David Nelson Crosthwait Jr. Charles Richard Drew, M.D. Meredith Gourdine, Ph.D. Claude Harvard Shirley Ann Jackson, Ph.D. Frederick McKinley Jones Percy Lavon Julian, Ph.D. Ernest Everett Just, Ph.D. Lewis Howard Latimer Jan Earnst Matzeliger Elijah McCoy Benjamin Montgomery John P. Moon Garrett Augustus Morgan Norbert Rillieux Earl D. Shaw, Ph.D. Madame C. J. Walker Daniel Hale Williams, M.D. Granville T. Woods Jane Cooke Wright, M.D. For more than three centuries, African American inventors have been coming up with ingenious ideas. In fact, it is impossible to really know American history without also learning about the contributions of black discoverers. This collection brings their stories to life. In every era, black inventors have made people's lives safer, more comfortable, more convenient, and more profitable. This inspiring, comprehensive collection shines history's spotlight on these courageous inventors and discoverers. One by one, they persevered, despite prejudica and obstacles to education and training. These stories show you how: Benjamin Montgomery, born a slave, invented a propeller that improved steamboat navigation. Jan Earnst Matzeliger, the son of a Dutch engineer, invented a machine that revolutionized the shoe manufacturing industry. Madame C. J. Walker, born two years after the Civil War emancipated her parents, invented a product that helped make her a millionaire. Dr. George E. Carruthers, an astrophysicist, invented the lunar surface ultraviolet camera/spectrograph for Apollo 16. Dr. Jane Cooke Wright, a third-generation physician and pioneer in the field of cancer research discovered a method for testing which drugs to use to fight specific cancers. Dr. Wright became the first woman elected president of the New York Cancer Society and the first African American woman to serve as dean of a medical college. This outstanding collection brings to light these and dozens of other exciting and surprising tales of inventors and discoverers who lived their dreams.

"The Colored Inventor: A Record of Fifty Years" by Henry E. Baker. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The most comprehensive work on African American inventors to date, this book provides information on patent holders in all fields from colonial to modern times.

Woodson's classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community. (Education/Teaching)

"In debunking some of the myths, including financial success and race pride, Fouché humanizes them and examines the greater significance of their work in the context of American sociological and commercial history." -- Booklist

Accurately rendered, ready-to-color collection of illustrations spotlights 45 remarkable individuals: Frederick Douglass, Thurgood Marshall, Marian Anderson, Althea Gibson, Duke Ellington, and many more. Captions. Free Teacher's Manual available. Grades: 3 – 5.

Celebrating the inventor of the Crayola crayon! This gloriously illustrated picture book biography tells the inspiring story of Edwin Binney, the inventor of one of the world's most beloved toys. A perfect fit among favorites like The Day the Crayons Quit and Balloons Over Broadway. purple mountains ' majesty, mauvelous, jungle green, razzmatazz... What child doesn't love to hold a crayon in their hands? But children didn't always have such magical boxes of crayons. Before Edwin Binney set out to change things, children couldn't really even draw in color. Here 's the true story of an inventor who so loved nature 's vibrant colors that he found a way to bring the outside world to children – in a bright green box for only a nickel! With experimentation, and a special knack for listening, Edwin Binney and his dynamic team at Crayola created one of the world 's most enduring, best-loved childhood toys – empowering children to dream in COLOR!
