Brue Metzger calls the Westcott-Hort text "The most noteworthy critical edition of the Greek Testament ever produced by British scholarship." In their monumental critical edition of "The New Testament in the Original Greek," Cambridge professors B. F. Westcott and F. J. A. Hort established the Greek text that has become the essential basis for nearly all subsequent editions and English translations. Through their groundbreaking reconstruction of New Testament textual history and their rigorous reexamination of the manuscript evidence, Westcott and Hort inaugurated a new era of textual study that has set the stage for all subsequent work. Beyond preserving the landmark text, this new edition offers students and scholars alike a handy and affordable Greek Testament for day-to-day use that includes English headings, synoptic parallels, and complete references to Old Testament quotations. This edition also includes a revision and expansion of Alexander Souter's "A Pocket Lexicon of the Greek New Testament." Long a favorite among biblical scholars, Souter's "Pocket Lexicon" offers concise yet clear English definitions and helpful grammatical information on every Greek word used in the New Testament. A Foreword by renowned New Testament textual scholar, Dr. Eldon J. Epp, sets the Westcott-Hort text in historical perspective for contemporary readers. FEATURES - Detailed apparatus comparing the Westcott/Hort text with differences in the 27th edition of Nestle/Aland and Robinson/Pierpont Byzantine editions - Complete references to Old Testament citations and synoptic gospel parallels - English section headings for easy navigation - Revised and expanded Souter Greek dictionary - Bible maps

There is no society without right and wrong. There is no society without sin. But every culture has its own favorite list of trespasses. Perhaps the most influential of these was drawn up by the Church in late antiquity: the Seven Deadly Sins.

How classical narrative models were adapted as early Christian culture took shape and developed.

"... transcends the realm of literature and poetic criticism to include virtually every field of Arabic and Islamic studies." -- Roger Allen Throughout the classical Arabic literary tradition, from its roots in pre-Islamic Arabia until the end of the Golden Age in the 10th century, the courtly ode, or qasida, dominated other poetic forms. In The Poetics of Islamic Legitimacy, Suzanne Stetkevych explores how this poetry relates to ceremony and political authority and how the classical Arabic ode encoded and promoted a myth and ideology of legitimate Arabo-Islamic rule. Beginning with praise poems to pre-Islamic Arab kings, Stetkevych takes up poetry in praise of the Prophet Mohammed and odes addressed to Arabo-Islamic rulers. She explores the rich tradition of Arabic praise poems in light of ancient Near Eastern rites and ceremonies, gender, and political culture. Stetkevych's superb English translations capture the immediacy and vitality of classical Arabic poetry while opening up a multifaceted literary tradition for readers everywhere.

Translation is a journey - a journey undertaken by the text, hopping around the world and mischievously border-crossing from one language to another, from one culture to another. For a translator, this journey can become a truly creative engagement with the otherness of the source text, an experience of self-discovery leading to understanding and enrichment, and ultimately towards a new text. This singular literary 'experiment' intends to magnify the idiosyncrasy of this translational journey. In the process translation reveals itself as an increasingly creative activity rather than simply a linguistic transfer. This volume consists of twelve translations of one poem: 'Les Fenêtres' by the French poet Apollinaire. The translators embarking on this project, all from different backgrounds and working contexts (poets, professional translators, academics, visual artists), were asked to engage with the inherent multimodality of this poem - inspired by Robert Delaunay's Les Fenêtres series of paintings. The result is a kaleidoscopic diversity of approaches and final products. Each translation is accompanied by self-reflective commentary which provides insight into the complex process and experience of translation, enticing the reader to join this journey too.

The Book of Tahkemoni , or wisdom, was the last great Hebrew work from medieval Spain. Composed around the year 1200 by Alharizi it presents a fluid mix of rhymed prose and verse, and it recounts fifty tales. These include biblical, philosophical, lilitary, humerous, whimsical, spiritual and mythological stories, all translated here into English and followed by Segal's in-depth discussion of each of the chapters or `gates'.
