Constantine the Great moved the seat of Roman power to Constantinople in AD 330 and for eleven brutal, bloody centuries, the Byzantine Empire became a beacon of grand magnificence and depraved decadence . . . Here then are the centuries dominated by ferocious arguments over the nature of Christ and his Church. By knowledge, where scholars and scribes preserved the heritage of the ancient world. By emperors like Justinian the Great and Basil the Bulgar-Slayer - men pious, heroic or monstrous. By creativity, as art and architecture soared to new heights. In this abridgement of his celebrated trilogy, John Julius Norwich provides the definitive introduction to the

To complement previous extensive work on late antique long-distance trade within the Mediterranean (based on the grain supply, amphorae and fine ware circulation), the papers concentrate on local and international trade. The emphasis is on recently uncovered or studied archaeological evidence relating to key topics. These include local retail organisation within the city, some regional markets within the empire, the production and/or circulation patterns of particular goods (metalware, ivory and bone, glass, pottery), and objects of international trade, both exports such

Innocent I, who in the fifth century successfully negotiated with Alaric the Goth, an invader civil authorities could not defeat; Leo I, who two decades later tamed (and perhaps paid off) Attila the Hun; the infamous “pornocracy” —the five libertines who were descendants or lovers of Marozia, debauched daughter of one of Rome’s most powerful families; Pope Paul III, “the greatest pontiff of the sixteenth century,” who reinterpreted the Church’s teaching and discipline; John XXIII, who in five short years starting in 1958 instituted reforms that led to Vatican II; and Benedict XVI, who is coping with today’s global priest sex scandal. Epic and compelling, *Absolute Monarchs* is an enthralling history from “an enchanting and satisfying raconteur” (The Washington Post).
