Women around the world have responded to Cara Alwill Leyba's Girl Code with a resounding YES. Companies like Kate Spade and Macy's have brought her in to teach "the Code." Inc. magazine named Girl Code one of the "Top 9 Inspiring Books Every Female Entrepreneur Should Read" alongside Lean In, #GIRLBOSS, and Thrive. A few years ago, I made a crazy claim in the first edition of Girl Code: that in today's competitive marketplace, the fiercest thing a female entrepreneur can do is to support other women. Something dynamic happens when women genuinely show up for each other. When we lose the facades, cut the bullshit, and truly have each other's backs. When we stop pretending everything is perfect, and show the messy, beautiful parts of ourselves and our work-which all look awfully similar. When we talk about our fears, our missteps, and our breakdowns. And most importantly, when we share our celebrations, our breakthroughs, and our solutions. I'm convinced that there's no reason to hoard information, connections, or insight. Wisdom is meant to be shared, so let's start sharing what we've learned to make each other better. Let's start building each other up. Let's live up to our potential and start ruling the world. Girl Code is a roadmap for female entrepreneurs, professional women, "side hustlers" (those with a day job plus a part-time small business), and anyone in between. This book won't teach you how to build a multimillion-dollar company. It won't teach you about systems or finance. But it will teach you how to build confidence in yourself, reconnect with your "why," eradicate jealousy, and ultimately learn the power of connection. Because at the end of the day, that's what life and business are all about.

It's time to reset, adjust and take the power back. Having spent over 20 years building her hugely successful beauty empire, Maria Hatzistefanis managed to achieve all her childhood dreams and goals. Whilst this life of glamour and success is exhilarating, Maria is shocked to find that the happiness it brings is fleeting. This leads her to realise that her life needs a new focus. In this easy to follow guide Maria asks the fundamental question 'what is happiness?'. Analysing her own experiences, failures and fortunes, Maria provides clear, concise and intuitive strategies to help you tackle your own challenges. From aligning your thoughts and actions to detaching your success from achievements, Maria shares her practical secrets to mastering your mindset. How to Live Your Best Life will equip you with the tools you need to be in control of your own destiny. Brimming with good sense, great advice and clear tips Maria guides you on your journey to happiness and ultimately success.

Can you imagine what life would be like if you could accept failure, cellulite, wrinkles, imperfection, screw-ups, and vulnerability? I'll tell you what would happen: you would finally take that weight off your shoulders and build unshakeable, sustainable confidence. The truth is that confidence isn't about living up to anyone's expectations-it's about affirming, every day, that you're an effing boss. It's not the result of being skinny, making a six figure salary, finding your dream partner, or drinking a green juice every day. It requires patience, dedication, forgiveness, bravery, and an incredible amount of self-compassion. You've probably read that "confidence is a choice," and while that's true, it's more accurate to say that confidence is a series of repeated choices to accept yourself. To choose pride over insecurity. And to fearlessly show up in the world as the truest expression of yourself. It took me a long time to overcome all the BS, it took me a longer time to develop a rock-solid sense of inner-peace and become intimate with my intuition. To achieve real confidence that lasted longer than a sugar rush. My goal with this book is to share with you how I have arrived here, how I've helped my clients arrive here, and hopefully save you years of pain, shame, and uncertainty. Because, girl, I know how rocky this road can be. I'm going to show you how to block out all the noise around you, and how to free yourself from the opinions and judgment of others. I'm going to teach you how to trust your gut, reclaim your life, and rock what you've got. I'm going to show you how to own the place.

"You are not born an entrepreneur. It's a skill that you learn along the way." When the skincare company Rodial launched its cult 'snake' serum, the press quickly called the business an 'overnight success'. However, Rodial's founder Maria Hatzistefanis had been toiling for 18 years, building the company from scratch in her bedroom. Now, the beauty boss sets out to demonstrate in this very accessible book that its success stemmed from sheer hard work, tireless efforts and a lot of patience. Fashion-loving Maria set out with a dream to build a beauty business and - despite not excelling at school, and being fired from her first job - she has achieved it. She did it by dreaming big, working hard, surrounding herself with the best, taking risks, creating buzz and building her own personal brand, which is now a favourite with high-profile models and media personalities including Poppy Delevingne, Daisy Lowe and Kylie Jenner. Crucially, she believes anyone can do this and her book, brimming with good sense, great advice, tips and secrets - all presented in an easy, friendly style - shows how.

"Based on in-depth interviews with more than 200 leading entrepreneurs, [including the founders of LinkedIn, Chipotle, eBay, Under Armour, Tesla Motors, SpaceX, Spanx, Airbnb, PayPal, JetBlue, Gilt Group, Theranos, and Dropbox], a business executive and senior fellow at [the Harvard Kennedy School] identifies the six essential disciplines needed to transform your ideas into real-world successes, whether you're an innovative manager or an aspiring entrepreneur"--

"American women are starting businesses at nearly twice the rate that men are, but only three percent of female business owners have revenues of over one million dollars. Most women entrepreneurs are stuck at the 'mom and pop' level, just getting by, or in many cases, running out of cash. Julia Pimsleur shares her ... story of building her own company and raising millions in capital in a guide for women like her who have a great idea and need to find the resources to take it into the big leagues"--Amazon.com.

If building a successful business has been a struggle for you then this book is the key to unlocking success mysteries. Sandra Baptist covers the key tenets of Marketing, Business, Sales, Numbers and Mindset and offers her FABULOUS3 Plan for achieving results. This book is exactly what you need to start taking your business to the next level with specific steps and strategies you can implement right away for generating more revenue, creating more profits and growing your business faster.

Everything we know about the world today follows an invisible set of rules-how we work, love, parent, spend our money, and define success. But what if we could remove these outdated ideas and start anew? What would our lives look like if we could redefine the meaning of happiness, purpose, and success? The Code of the Extraordinary Mind blends computational thinking, integral theory, modern spirituality, evolutionary biology, and a little bit of humor to provide a revolutionary framework for re-coding ourselves with new, empowering beliefs and behaviors so we can live extraordinary lives. Throughout, Vishen Lakhiani shares transformative insights from legendary thinkers including Elon Musk, Richard Branson, and Arianna Huffington, among others, helping us to think like the greatest creative minds of our era-questioning, challenging, and creating new rules for our lives. Lakhiani's 10 laws help us retrain our minds to grow and achieve more than we ever thought was possible, showing us that we do not need to follow convention and can succeed on our own terms no matter where we are starting from.
