A security is a tradable financial asset. The term commonly refers to any form of financial instrument, but its legal definition varies by jurisdiction. In some countries and languages the term "security" is commonly used in day-to-day parlance to mean any form of financial instrument, even though the underlying legal and regulatory regime may not have such a broad definition. In some jurisdictions the term specifically excludes financial instruments other than equities and fixed income instrume

*Security (finance) - Wikipedia*

Securities. This is FindLaw's collection of Securities articles, part of the Finance section of the Corporate Counsel Center. The Federal Securities Laws are comprised of a series of statutes, which in turn authorize a series of regulations promulgated by the government agency with general oversight responsibility for the securities industry, the Securities and Exchange Commission.
