Looking for a quick but engrossing read? In "Hunted Down," master storyteller Charles Dickens makes an uncharacteristic foray into quasi-detective fiction, and creating an idiosyncratic protagonist whose strange interests and preoccupations make him a natural when it comes to tracking down criminals.

X-Force, Cable, and Deadpool creator ROB LIEFELD returns to comics with a new ONGOING series, a lively romp that reveals a more mature side to LIEFELD than fans have previously experienced. A new recruit to the Bloodstrike program, (his identity as a mystery man from the historical Extreme Universe soon to be revealed!) struggles on a covert mission and loses his life as well as his junk to the mysterious TRAGEDY ANNI

Fuels, Lubricants, Coolants, and Filters easily helps a reader to understand these wonderful liquids and filters better. By starting with the basics, it builds your knowledge step-by-step in a very structured manner.

A basic guide to the inspection, repair, and maintenance of tires and tracks for off-road vehicles. Ranging from simple model variations to those machines built for specific purposes, this industrial-grade volume chronicles the "other line" of John Deere machinery. A mainstay in heavy industry and construction sites throughout the world, John Deere Industrials begins with coverage of the popular A-series with its yellow paint and the letter "I" added to the model designation that has become the hallmark of these incredible machines. (Delayed from Spring 2002)

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.
