A critical reading of both literary and non-literary German texts published between 1490 and 1540 exposes a populist backlash against perceived social and political disruptions, the dramatic expansion of spatial and epistemological horizons, and the growth of global trade networks. These texts opposed the twin phenomena of pluralization and secularization, which promoted a Humanist tolerance for ambiguity, boosted globalization and spatial expansion

around 1500, and promoted new ways of imagining the world. Part I considers threats to the political order and the protestations against them, above all a vigorous defense of the common good. Part II traces the intellectual and epistemological upheaval triggered by the spatial discoveries and the new methods of visual and verbal representation of space. Part III examines the nationalistic backlash triggered by the rising global trade and related abusive trading practices and by perceived undue foreign influences. It is the basic premise of this book that the texts examined here protested the observed disruptions of the status quo and sought to reestablish a stable imperial order in the face of political and social upheaval and of the felt cultural decline of the German nation.

Height only five-foot four; a figure of Ghandi-like emaciation barely tipping the scales at one hundred pounds; a head too large for his body; a clubfoot for which he was taunted as both man and boy - all the cards seemed stacked against him. Goebbels blamed the world at large; he hated the human race, and he boasted of his hatred in his secret diaries. Historian David Irving is the first to make use of the entire 80,000 pages of the Goebbels diaries - diaries that lay unrecognized for fifty years in the Red Army's "Trophy" archives in Moscow. From this extraordinary trove, to which Irving has added six years' research into the archives of the Western World, he has written the first full-scale biography of Adolf Hitler's confidant and evil genius, Dr. Joseph Goebbels. Here for the first time are Goebbels's secret, unpublished writings on the Reichstag Fire, the Night of the Long Knives, the Dollfuss murder, the Saar plebiscite, the invasion of Prague, Pearl Harbor, and scores of other turning points in modern history. Dr. Goebbels faithfully records Hitler's innermost councils, documenting the hidden

methods and strategies of Nazi leadership.

Burning ambition, brutal setbacks, meteoric rises, and unbelievable coincidences. Teetering on the edge of the abyss, risking everything, and reaching multi-national stardom. Not to mention life choices that could have sent the whole story in an entirely different direction. The life of Samu Haber – front man of Finnish rock band Sunrise Avenue ("Hollywood Hills", "Fairytale Gone Bad") and celebrity judge on The Voice of Germany – has been one stupendous roller-coaster ride. His passion for music has been the constant that kept him sane throughout. Written in a brisk, engaging – and characteristically charming – style, this exclusive autobiography is Samu's true story: from shady encounters, narrow escapes, and a barrage of record-company rejections to muscling his own way into pan-European music stardom. With vivid recall and total candour, Samu charts his determined path to success – but also the price he and loved ones paid along the way: burnout, broken relationships, artistic crises, and one close call after another. At turns tender, hilarious, and incredible, this thrilling full-disclosure read is a must for all Sunrise Avenue fans and for anyone that dreams of something other than the ordinary.

A lonely little girl befriends a star that has fallen out of the sky, but when the star begins to get sick she must allow it to return home, in a magical tale about friendship. Reprint. 15,000 first printing.

The fourteen chapters in this anthology feature original analyses of contemporary German-language literary texts,

films, political cartoons, cabaret, and other types of performance. The artworks display a wide spectrum of humor modes, such as irony, satire, the grotesque, Jewish humor, and slapstick, as responses to unification with the accompanying euphoria, but also alienation and dislocation. Kerstin Hensel ' s Lärchenau, Christoph Hein ' s Landnahme, and vignette collections by Jakob Hein (Antrag auf ständige Ausreise und andere Mythen der DDR) and Wladimir Kaminer (Es gab keinen Sex im Sozialismus) are interpreted as examples of the grotesque. The popular films Lola rennt, Sonnenallee, Herr Lehmann, NVA, Alles auf Zucker!, and Mein Führer—Die wirklich wahrste Wahrheit über Adolf Hitler are reexamined through the lens of traditional and more recent humor or comic book theories. The contributors focus on how each artwork enriches four prominent postwall German cultural trends: post-unification identity reconstruction, Vergangenheitsbewältigung (including Hitler humor), New German Popular Literature (Christian Kracht ' s ironic subtexts), and immigrant perspectives (a “ third voice ” in the East-West binary reflected here pointedly in Eulenspiegel cartoons). To date, no other scholarly work provides as comprehensive an overview of the diverse strategies of humor used in the past two decades in German-speaking countries.
