Lakshmi Ananthakrishnan, M.D. Medical Director, Computed Tomography Radiology. Dr. Ananthakrishnan standing by the Spectral CT-20 scanner. Every day, patients come to me for imaging tests, such as computed tomography (CT) scans and X-rays. Occasionally, patients are concerned because they've heard that these types of tests expose them to radiation.

Is radiation from a CT or PET scan dangerous? | Cancer ...

A CT scan is a test that uses x-rays and a computer to create detailed pictures of the inside of your body. It takes pictures from different angles. The computer puts them together to make a 3 dimensional (3D) image. CT (or CAT) stands for computed (axial) tomography. You usually have a CT scan in the x-ray (radiology) department as an outpatient.

DC Buzz: It just became a federal crime to hack U.S.... Senate Republicans are expected to take over coronavirus negotiations from Treasury Secretary Steven Mnuchin, while the White House sits it out during the last two months of President Donald Trump's term.

DC Buzz: The election is over. Do we get a coronavirus ...

"We have an application online that people can fill out for outdoor or tent dining," said Trumbull Town Planner Rob Librandi. "They don't have to go through Planning and Zoning, but we will review the application in our office to double check things like entrances/exits, location, fire extinguishers, lightings, ADA compliance, whether it meets the 50 percent capacity limit for indoor ...
