The parents of a child born without hearing describe their efforts to reach across the barrier of silence to teach their daughter to speak and enjoy a normal life.

The parents of a child born without hearing describe their efforts to reach across the barrier of silence to teach their daughter to speak and enjoy a normal life.

In the tradition of the beloved New York Times bestsellers *Marley and Me* and *Oogy: The Dog Only a Family Could Love*, a charming, inspirational memoir about empathy, resilience, kindness, and an adorable deaf blind pink dog. When Connecticut veterinarian Melissa Shapiro gets a call about a tiny deaf blind puppy rescued from a hoarding situation in need of fostering, she doesn't hesitate to say, ¡yes.¡ Little does she know how that decision will transform her, her family, and legions of admirers destined to embrace the saga of the indomitable pink pup. One of the most anxious dogs Melissa had ever encountered, the traumatized Piglet weighed under two pounds upon his welcome into the Shapiro household¡which included Melissa's husband Warren and their three college-aged kids, plus six other rescued dogs. After weeks of reassurance, and lots of love, Piglet connected, gained confidence, and his extraordinary spirit emerged. Melissa soon forged a powerful bond with Piglet, allowing the two to communicate without sound or visual cues. Two months later, when the day arrived to say good-bye to the now dashing, six-pound pink boy dog with the larger than life spirit, Melissa faced a heart-wrenching decision. Could she hand him over to someone willing to give Piglet the full-time attention he required or could she adapt her schedule and her household to make a permanent place for him in her life and work? Of course, the answer was simple: love would find a way. Curious, engaged, and incredibly eager to learn, Piglet quickly became part of the family. What started out as a few simple Facebook posts of Piglet and his pack rapidly evolved into a global celebration of Piglet's infectiously positive mindset. Piglet: The Unexpected Story of a Deaf, Blind, Pink Puppy and His Family fully illustrates this heartwarming story of one special little puppy with a purpose to teach the power of empathy, love, and kindness.

Myron Uhlberg was born the hearing son of deaf parents at a time when American Sign Language was not well established and deaf people were often dismissed as being unintelligent. In this young reader adaptation of his acclaimed memoir, Hands of My Father, Uhlberg recalls the daily difficulties and hidden joys of growing up as the intermediary between his parents' silent world and the world of the hearing.

A neurobiologist reexamines the personal nature of perception in this groundbreaking guide to a new model for our senses. We think of perception as a passive, mechanical process, as if our eyes are cameras and our ears microphones. But as neurobiologist Susan R. Barry argues, perception is a deeply personal act. Our environments, our relationships, and our actions shape and reshape our senses throughout our lives. This idea is no more apparent than in the cases of people who gain senses as adults. Barry tells the stories of Liam McCoy, practically blind from birth, and Zohra Damji, born deaf, in the decade following surgeries that restored their senses. As Liam and Zohra learned entirely new ways of being, Barry discovered an entirely new model of the nature of perception. Coming to Our Senses is a celebration of human resilience and a powerful reminder that, before you can really understand other people, you must first recognize that their worlds are fundamentally different from your own.
