"Using irresistible buttons to push and pop, kids will love learning cool facts about an alphabet of amazing dinosaurs!" -- Page [4] cover.

Arranged alphabetically, the encyclopedia presents an enormous amount of dinosaur information for budding paleontologists and amateur fossil hunters. Information cited includes what each dinosaur's name means, its pronunciation, its complete taxonomic classification, length, time period, place, diet, and other details. This easy-to-navigate book contains 700+ entries for every creature that has scientifically been verified a dinosaur (as well as those that are commonly mistaken for dinosaurs).

A handsomely illustrated reference covers all major dinosaur and ancient reptile groups, including such recent finds as feathered dinosaurs, and features ten of the most popular dinosaurs on full two-page spreads.

The perfect way to introduce children to the fascinating world of dinosaurs. Full of interesting facts--did you know some dinosaurs had sharp front teeth while others had no front teeth at all? This alphabet book explores both the known and the not-so-well known dinosaurs. Meet the heterodontosaurus (one of the smallest known to exist), the megalosaurus (the first dinosaur ever discovered), the iguanodon, the ultrasaurus, and more! Once again, Jerry Pallotta and Ralph Masiello have combined their talents to create a unique children's book that will inform and entertain young readers.

In this self-published book, author and illustrator, Patrick Murphy, brings dinosaurs to life with an expert blending of art and science. Intended for kids age 9 and up, Dinosaurs A-Z: Dinosaur Classics goes over the basics of dinosaur paleontology - what is a dinosaur? When did they live? What were they like? Do dinosaurs still roam the earth? In addition, readers get a closer look into the lives of some of the most beloved dinosaurs. After reading this book, your child will fall in love with dinosaurs all over again.
