Environmental Decision-Making in Context - Purchase now!

Strategic environmental assessment is a systematic decision support process, aiming to ensure that environmental and possibly other sustainability aspects are considered effectively in policy, plan and program making. In this context, following Fischer SEA may be seen as: a structured, rigorous, participative, open and transparent environmental impact assessment based process, applied particularly to plans and programmes, prepared by public planning authorities and at times private bodies, a par

Strategic environmental assessment - Wikipedia

Organizational environment denotes internal and external environmental factors influencing organizational activates and decision making. Every organization, whether business or non-business, has its environment. The organizational environment is always dynamic and ever-changing. Changes today are so frequent and every change brings so many challenges that managers and leaders of the organization need to be vigilant about the environmental changes.

Internal and External Environment Factors that Influences ...

The United Nations Economic Commission for Europe (UNECE) Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters (pdf -50K) was adopted on 25 June 1998 in the Danish city of Aarhus (Århus) at the Fourth Ministerial Conference as part of the "Environment for Europe" process. It entered into force on 30 October 2001.

Environmental Decision-Making in Context : Chad J. McGuire ...

Contemporary environmental decisions are made within the context of sustainability aimed at meeting integrated ecological, economic and social goals. Most involve a complex mix of actors and institutions - differing values and differing interests. Choices are difficult and often controversial, and decision-making processes and contexts provide crucial influences on outcomes.
