Food politics is a term which encompasses not only food policy and legislation, but all aspects of the production, control, regulation, inspection, distribution and consumption of commercially grown, and even sometimes home grown, food. The commercial aspects of food production are affected by ethical, cultural, and health concerns, as well as environmental concerns about farming and agricultural practices and retailing methods. The term also encompasses biofuels, GMO crops and pesticide use, th

~~Food politics — Wikipedia~~

Marion Nestle wrote how the food industry influences nutrition and health. Politics, government and the Food Industry are influencing the way consumers eat. We are totally being controlled as to the way we eat. It is not a free country. We need to break free of the food industry and select the food, which is more beneficial for the human body.

It has just published its 2020 interactive Scorecard, which you can use to check how your state's legislators score on food issues. As Food Policy Action puts it, the "scorecard underscores Senate's failure to feed hungry, protect workers." Food Policy Action identifies six ways Trump has hurt eaters, food workers and farmers.

~~Food Politics by Marion Nestle~~

The political vitriol around food assistance for the neediest and, oddly enough, whitest Americans makes it nearly impossible to subsist in many states. Being a "foodie" often means people are interested in good meals, yet know nothing of the low wages, food instability, and stereotypes that are a part of each and every thing we eat.
