The Women, Peace and Security Agenda has a transformative potential. It is a powerful tool for moving from exclusive to democratic decision-making, from gender inequality to gender justice and from conflict and violence to sustainable and feminist peace. The Agenda is now recognised internationally, but there are still challenges.

Women's participation helps ensure that peace is more sustainable. Fifteen years ago, 31 October 2000, the United Nations Security Council adopted resolution 1325 on women, peace and security. But far too often, women are still excluded, which poses a threat to peace and security and sustainable development in several parts of the world.

MSc Gender, Peace and Security – London School of ...

Gender, peace and security. The impacts of conflict and insecurity are different for women, girls, men and boys. The way people behave is also influenced by their social, cultural and political context that can reinforce expected roles for women, men and gender minorities. Where these underlying gender norms give rise to negative attitudes and behaviours they can be both a driver of conflict and an obstacle to peace.
