I can't say I read this book so much as skimmed the compelling photos in "101 Things to Make And Do Outdoors." This is a great book to inspire young people and ...

Young people these days are often homebound, entertaining themselves with the Internet, television, video games, and text messages, but completely disconnected from the reality of the great outdoors. Many have never experienced simple pleasures such as telling stories around a warm campfire, camping outdoors, or whittling a stick. Go Wild! is the perfect book for families with children ages 10 to 14 wanting to get in touch with the natural world. The authors describe a range of wild and fun adventures for families to share. Readers learn potentially life-saving skills that give them confidence, independence, and a sense of environmental awareness. Topics include building shelter, building a fire, foraging for food, cooking outdoors, tools and weapons, bushcraft skills, water and keeping clean, and safety. From making a catapult to catching crayfish, creating fire without matches to constructing a tepee, Go Wild! is all about thrilling activities, amazing discoveries, and young people having the time of their lives in the great outdoors.

Make it Wild! shows how children can enjoy the endless opportunities offered by wild places. Looking at what nature has to offer, they explore the potential of diverse raw materials such as snow, leaves, and sticks and suggest how to work with them. The book demonstrates how to use nature's free, renewable resources to make anything from a clay monster to an ice lantern or flaming balloons. Making things outdoors involves creativity and imagination, as well as learning how to solve practical problems, how to work together, the need to see a process through from start to finish, and the safe use of potentially dangerous tools — all of which help children acquire the skills they need to cope with the world and develop a commonsense understanding of the way it works.

The stick is a universal toy. Totally natural, all-purpose, free, it offers limitless opportunities for outdoor play and adventure and it provides a starting point for an active imagination and the raw material for transformation into almost anything! As New York's Strong National Museum of Play pointed out when they selected a stick for inclusion in their National Toy Hall of Fame, "It can be a Wild West horse, a medieval knight's sword, a boat on a stream, or a slingshot with a rubber band. . . ." In this book Fiona Danks and Jo Schofield offer masses of suggestions for things to do with a stick, in the way of adventures and bushcraft, creative and imaginative play, games, woodcraft and conservation, music and more.

Young people these days are often homebound, entertaining themselves with the Internet, television, video games, and text messages, but completely disconnected from the reality of the great outdoors. From making a catapult to catching crayfish, creating fire without matches to constructing a tepee, Go Wild! is all about thrilling activities, amazing discoveries, and young people having the time of their lives in the great outdoors.

With the internet, smartphones, and video games easily available to increasing portions of society, researchers are becoming concerned with the potential side effects and consequences of their prevalence in people's daily lives. Many individuals are losing control of their internet use, using it and other devices excessively to the point that they negatively affect their wellbeing as these individuals withdraw from social life and use their devices to escape from the pressure of the real world. As such, it is imperative to seek new methods and strategies for identifying and treating individuals with digital addictions. Multifaceted Approach to Digital Addiction and Its Treatment is an essential research publication that explores the definition and different types of digital addiction, including internet addiction, smartphone addiction, and online gaming addiction, and examines overall treatment approaches while covering sample cases by practitioners working with digital addiction. This book highlights topics such as neuroscience, pharmacology, and psychodynamics. It is ideal for psychologists, therapists, psychiatrists, counselors, health professionals, students, educators, researchers, and practitioners.

The scientific evidence behind why maintaining a lifestyle more like that of our ancestors will restore our health and well-being. In GO WILD, Harvard Medical School Professor John Ratey, MD, and journalist Richard Manning reveal that although civilization has rapidly evolved, our bodies have not kept pace. This mismatch affects every area of our lives, from our general physical health to our emotional wellbeing. Investigating the power of living according to our genes in the areas of diet, exercise, sleep, nature, mindfulness and more, GO WILD examines how tapping into our core DNA combats modern disease and psychological afflictions, from Autism and Depression to Diabetes and Heart Disease. By focusing on the ways of the past, it is possible to secure a healthier and happier future, and GO WILD will show you how.

You don't need to live right on the water's edge to have fun at the beach! The Beach Book is all about finding wild places at the seaside, as well as by lakes and rivers and making the most of opportunities to explore and enjoy all these places have to offer. You can have fun: Discovering beach wildlife (eg. rock pooling, crabbing and fishing or making a rock-pool viewer) and exploring sand dunes and beach combing. Making the most of lakes and rivers by foraging, damming and diverting streams and boat racing. Using natural resources to play and invent new games (e.g., stone Jenga and skittles, ball runs and boules or funny face games. Being creative (e.g., making driftwood monsters, marram grass dolls and creating sand paintings).

More than 100 hilarious and ridiculous things that you should never, ever do in real life. We all know that we should never fight a tiger or become a mafia boss, but that doesn't mean it isn't funny and fascinating to learn about. Forbidden Knowledge offers a collection of the most ridiculous things that you should never attempt in real life—but will make you laugh none the less. You'll learn everything from how to take over a cult to swimming with piranhas to how to build an atomic bomb or escape from prison. Forbidden Knowledge invites you to embrace the absurd with pranks that are sure to make you laugh. With over 100 extremely bad ideas that you should never do, this entertaining and light-hearted book makes each hilarious scenario so much fun to imagine.

'A beautiful and inspiring book, bursting with practical suggestions which will appeal to every child's imagination. Reading it, I wanted to rush out to my nearest wood immediately!' Julia Donaldson, author of The Gruffalo Who doesn't love a stick? The universal toy for children and adults alike, sticks can provide endless opportunities for outdoor adventures, creative play, woodcraft and conservation. Packed with 70 ideas and projects, The Stick Book will give you loads of ideas for using the wonderful, free and all-natural toy, the stick. As The National Museum of Play (New York) pointed out when they selected a stick for inclusion in their National Toy Hall of Fame, "It can be a Wild West horse, a medieval knight's sword, a boat on a stream, or a slingshot with a rubber band. . . ." A stick can be anything you want it to be. This book will give you loads of inventive ideas for spending quality time outdoors with your children — from the adventurous to the magical, getting creative to playing games, making music to building bug hotels. Try your hands at: Making a DIY tent or den Creating a woodland monster or magic carpet Wild weaving or making your own natural wind chimes Playing capture the flag or a woodland mapping game Making a bird feeder or bug hotel With 70 ideas and projects, there will be something for every little adventurer, dreamer or budding ecologist in The Stick Book. All you need to get started is ... a stick!
