pandemic and the ensuing global plummet in commercial flight. Mobility studies scholar Christopher Schaberg tours the newly opened airport terminal outside of New Orleans (MSY) in late 2019, and goes on to survey the broad cultural landscape of empty airports and grounded planes in the early months of the novel coronavirus's spread in 2020. The book culminates in a reflection on the future of air travel: what may unfold, and what parts of commercial flight are almost certainly relics of the past. Grounded blends journalistic reportage with cultural theory and philosophical inquiry in order to offer graspable insights as well as a stinging critique of contemporary air travel.

A traveling management consultant, thirty-five-year-old Ryan Bingham spends his life on airplanes and in airports as he travels around the country, pursuing his goal to accumulate one million miles in his frequent flyer account.

An eye-opening and fascinating slow travel journey from an acclaimed writer who circled the globe without ever leaving the ground. In this age of globalism and high-speed travel, Seth Stevenson, the witty, thoughtful Slate columnist, takes us back to a time when travel meant putting one foot in front of the other, racing to make connections between trains and buses in remote transit stations, and wading through the chaos that most long-haul travelers float 35,000 feet above. Stevenson winds his way around the world by biking, walking, hiking, riding in rickshaws, freight ships, cruise ships, ancient

ferries, buses, and the Trans-Siberian Railway-but never gets on an airplane. He finds that from the ground, one sees the world anew-with a deeper understanding of time, distance, and the vastness of the earth. In this sensational travelogue, each step of the journey is an adventure, full of unexpected revelations in every new port, at every bend in the railroad tracks, and around every street corner.

MR. BEAUTIFUL (UP IN THE AIR #4) JAMES She was my sin and my temple. I both worshipped and defiled there. Gloried and desecrated. Revered and debased. I've been remade four times in my life. It is a distinct feeling. Impossible to mistake. The very marked sensation of being unraveled and reknit into a new thing, a new person. It can be good or bad, helpful or harmful, but above all, it is unstoppable. I was remade when my parents died, went from a happy childhood, into navigating a very dark world, with endless responsibilities, surrounded by enemies, and despairingly alone. It happened again at the hands of a cowardly predator. I'd become angrier with that one, more cynical, and it undoubtedly turned me into the kinky f**k I was today. The third happened swiftly. One day I looked up into a pair of pale blue eyes and saw the other half of my soul. Checkmate. I went from a completely controlled existence, a life where I made every decision with cold calculation, to a man overcome with feelings and

emotions that were foreign but somehow wonderful. And all too soon after that cataclysmic change was this fourth one, this one where I begged a God I'd never entertained to spare the life of a woman that I could not live without. Mr. Beautiful is a continuation of the Up in the Air series, told from the male point of view, with POVs from James, Stephan, Tristan, Frankie, and Akira. This book is intended for readers 18 and up.

Director and producer Tim Burton impresses audiences with stunning visuals, sinister fantasy worlds, and characters whose personalities are strange and yet familiar. Drawing inspiration from sources as varied as Lewis Carroll, Salvador Dalí, Washington Irving, and Dr. Seuss, Burton's creations frequently elicit both alarm and wonder. Whether crafting an offbeat animated feature, a box-office hit, a collection of short fiction, or an art exhibition, Burton pushes the envelope, and he has emerged as a powerful force in contemporary popular culture. In *The Philosophy of Tim Burton*, a distinguished group of scholars examines the philosophical underpinnings and significance of the director's oeuvre, investigating films such as *Batman* (1989), *Edward Scissorhands* (1990), *The Nightmare before Christmas* (1993), *Sleepy Hollow* (1999), *Big Fish* (2003), *Sweeney Todd* (2007), *Alice in Wonderland* (2010), and *Dark Shadows* (2012). The

essays in this volume explore Burton's distinctive style, often disturbing content, and popular appeal through three thematic lenses: identity, views on authority, and aesthetic vision. Covering topics ranging from Burton's fascination with Victorian ideals, to his celebration of childhood, to his personal expression of the fantastic, the contributors highlight the filmmaker's peculiar narrative style and his use of unreal settings to prompt heightened awareness of the world we inhabit. *The Philosophy of Tim Burton* offers a penetrating and provocative look at one of Hollywood's most influential auteurs.
