The #1 New York Times bestseller and the true story behind the film: A rugby team resorts to the unthinkable after a plane crash in the Andes. Spirits were high when the Fairchild F-227 took off from Mendoza, Argentina, and headed for Santiago, Chile. On board were forty-five people, including an amateur rugby team from Uruguay and their friends and family. The skies were clear that Friday, October 13, 1972, and at 3:30 p.m., the Fairchild's pilot reported their altitude at 15,000 feet. But one minute later, the Santiago control tower lost all contact with the aircraft. For eight days, Chileans, Uruguayans, and Argentinians searched for it, but snowfall in the Andes had been heavy, and the odds of locating any wreckage were slim. Ten weeks later, a Chilean peasant in a remote valley noticed two haggard men desperately gesticulating to him from across a river. He threw them a pen and paper, and the note they tossed back read: "I come from a plane that fell in the mountains ... Sixteen of the original forty-five passengers on the F-227 survived its horrific crash. In the remote glacial wilderness, they camped in the plane's fuselage, where they faced freezing temperatures, life-threatening injuries, an avalanche, and imminent starvation. As their meager food supplies ran out, and after they heard on a patched-together radio that the search parties had been called off, it seemed like all hope was lost. To save their own lives, these men and women not only had to keep their faith, they had to make an impossible decision: Should they eat the flesh of their dead friends? A remarkable story of endurance and determination, friendship and the human spirit, Alive is the dramatic bestselling account of one of the most harrowing quests for survival in modern times.

On the 25th anniversary of the accident, reconstructs the crash of United Airlines Flight 232, which hit the runway in a huge fireball after experiencing engine failure and loss of all flight controls and still had 185 survivors. 20,000 first printing.

Captain Chase Anderson is a distinguished war veteran, widow, and single mother in charge of Public Affairs at the base in Hawaii. After a Marine-81 helicopter-the very model her husband, Stone, was flying when he crashed in Afghanistan-goes down five miles off the coast of Oahu, Chase begins to suspect a conspiracy to minimize, even hide, the defects within the Marine-81. Despite threats to her career, Chase follows her hunch, and the search for the truth, a search that implicates everyone from Hawaii to the Pentagon, eventually leads her back to the disturbing truth about Stone and their marriage.

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards. Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The objectives of the "Interagency Helicopter Operations Guide" (IHOG) are to: Promote safe, cost-efficient and effective aviation services in support of agency and interagency goals and objectives; Define and standardize national, interagency helicopter management and operational procedures for helicopter users from participating agencies; Through standardization, facilitate the ability of personnel from different agencies to work cooperatively on incidents or projects; and Provide a framework within which areas, regions, states, and local units can provide supplemental, site-specific guidance. The procedures contained in this guide apply to helicopter operations conducted by providers and users of helicopters from participating agencies. This guide addresses both incident and resource helicopter operations.

"To Spurn the Gods: A Vietnam Memoir" is one of the most interesting and distinctive first-hand accounts of the early years of America's involvement that I have ever read. Allison parts with the conventional wisdom on a host of subjects, including the role of Catholics in South Vietnam, American journalists and Diem, and the larger geopolitics of the war. Throughout the memoir, the vivid and engaging writing style confers an authenticity to this account that is often lacking in the literature. This book greatly enhances our understanding of the early stages of the Vietnam tragedy." Thomas Schwartz Professor of History and Political Science Vanderbilt University
