A compelling account of forensic science's role in 50 real crime scene photogs how how criminals are caught. Mature content.

The development of forensic science in solving crimes, with real-life case examples.

Looks at the role of forensic science in criminal investigations and examines forty high-profile cases and the diverse technologies used to solve them, including fingerprinting, handwriting analysis, DNA testing, and toxicology. Simultaneous.

True crime cases - the shocker that grab headlines - are explored in eye-opening detail in this absorbing anthology. This book takes you to the scene of over 40 infamous crimes and into the heart of the intriguing investigations that followed.

An exploration of criminal profiling that discusses its history, FBI crime scene analysis procedures, the development of a profile, crime signatures and rituals, and other related topics and offers details on more than fifty true crime cases.

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

An odd welcome in Ravalli, Montana - a bar brawl, a jail cell and a murder charge. Eagle and two other prisoners escape the cell, steal three horses and disappear into the rugged mountains. A letter containing evidence of a string of baffling crimes is hidden in the saddlebags of one of the stolen horses, and the owner is frantic to have it back. Charges of murder, horse thievery, assaulting an officer of the law, aiding prisoners to escape - a mountain of trouble no innocent man should have to bear. Yet Eagle finds these troubles to be only the beginning.

She knows what you did...you will be exposed. Eva St. Claire, along with her siblings, carry a heavy burden. Each, in their own way, see the nightmare of evil hidden beneath the surface. Serial killer Mason Smith rots in prison for the murder of a young woman. However, the secret of another killing, still resides within him. Through Eva's unique family ability, she knows Mason is guilty of yet another murder, and she is determined to see him put to justice. When FBI Agent Adam Frasier's father reveals a blindsiding secret, he's forced to delve deeper into his investigation of the Angel of Death, and Eva holds the key. Dogged by secrets and hounded by a mysterious killer bound and determined to end Eva, Adam and Eva will have to find the truth, before becoming victims themselves. Together or apart, they fight to expose the darkness no matter what the cost.

America's most controversial medical examiner explores the unanswered questions surrounding the deaths of Marilyn Monroe, Robert F. Kennedy, Sharon Tate, Janis Joplin, William Holden, Natalie Wood, John Belushi, and many of his other important cases Now, for the first time, Dr. Noguchi recounts his colorful and stormy career, explains his innovative techniques, and reveals the full story behind his most fascinating investigations. In *Coroner*, Dr. Noguchi sheds new light on his most controversial cases—controversies that persist even today: —How did Natalie Wood spend the last terrifying moments of her life? —Did Marilyn Monroe commit suicide or were the drugs that killed her injected into her body by someone else? —Did Sirhan Sirhan or another gunman fire the bullet that killed Robert Kennedy? —How could the knives used in the murder of Sharon Tate be identified and traced to the Manson gang if they were never found? —What were the real circumstances behind the drug-related death of Janis Joplin? —Were Patty Hearst's kidnappers victims of police brutality or of their own revolutionary zeal? —How and why did William Holden die? —Was John Belushi murdered? These are just some of the questions answered in this powerful, gutsy book written by the real-life "Quincy," with co-author Joseph DiMona.

The type of firearm used in a crime can usually be identified by the bullet or by the casings left at the scene. Provide your readers with a revealing look at the tools and techniques used in ballistics research. The tiniest bit of evidence can unravel the most puzzling of crimes. Includes sidebars containing first-person accounts and historical crime-solving breakthroughs.
