The description for this book, Hindu Javanese: Tengger Tradition And Islam, will be forthcoming.

Civil Islam tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study

of courage and
reformation in the face
of state terror suggests
possibilities for
democracy in the
Muslim world and
beyond. Democratic in
the early 1950s and with
rich precedents for
tolerance and civility,
Indonesia succumbed to
violence. In 1965,
Muslim parties were
drawn into the slaughter

of half a million
communists. In the
aftermath of this
bloodshed, a "New
Order" regime came to
power, suppressing
democratic forces and
instituting dictatorial
controls that held for
decades. Yet from this
maelstrom of violence,
repressed by the state
and denounced by
conservative Muslims,

an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner

emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of

an Islamic state,
mobilized religiously
ecumenical support,

of democracy's
necessary pluralism, and
places Indonesia at the
center of our efforts to
understand what makes

The 2018/2019

Indonesian elections were among the most divisive elections in Indonesian history, where identity politics and ethno-religious sentiments were prevalent not just during the 2019 presidential election, but also during the 2018 regional

Contributors to this edited volume analysed the dynamics between identity politics, national and local politics and produce findings and insights that will inform prospective readers regarding the future of identity politics and how it may affect Indonesian politics for the

existing examples are impressive. They demonstrate a remarkable level of craftsmanship and are exceptionally expressive, exhibiting a range of emotions from the ferocious to the serene. Following a brief discussion of the early history of Buddhism in Indonesia, Natasha Reichle focuses

Through a rarely examined depiction of the last Singasari king, she explores the nature of religion in Java in the late thirteenth century and what we know about tantric practices and the syncretism of

This book is a wide-ranging study of the varieties of gamelan music in contemporary Java seen from a regional perspective.

While the focus of most studies of Javanese music has been limited to the court-derived music of Surakarta and Yogyakarta, Sutton goes

beyond them to consider also gamelan music of Banyumas, Semarang and east Java as separate regional traditions with distinctive repertoires, styles and techniques of performance and conceptions about music. Sutton's description of these traditions, illustrated with numerous musical examples in Javanese
