History Of The English People

English people traditionally speak the English language, a member of the West Germanic language family. The modern English language evolved from Middle English (the form of language in use by the English people from the 12th to the 15th century); Middle English was influenced lexically by Norman-French, Old French and Latin. In the Middle English period Latin was the language of administration and the nobility spoke Norman French.

BBC - History - Ancient History in depth: Peoples of Britain

The Ecclesiastical History of the English People, written by the Venerable Bede in about AD 731, is a history of the Christian Churches in England, and of England generally; its main focus is on the conflict between the pre-Schism Roman Rite and Celtic Christianity. It was originally composed in Latin, and is considered one of the most important original references on Anglo-Saxon history and has played a key role in the development of an English national identity. It is believed to have been com

Ecclesiastical History of the English People - Wikipedia

The adverse party unwillingly consenting, a blind man of the English race was brought, who having been presented to the priests of the Britons, found no benefit or cure from their ministry; at length, Augustine, compelled by real necessity, bowed his knees to the Father of our Lord Jesus Christ, praying that the lost sight might be restored to the blind man, and by the corporeal enlightening of one man, the light of spiritual grace might be kindled in the hearts of many of the faithful.

'In the year of grace 1066, the Lord, the ruler, brought to fulfilment what He had long planned for the English people: He delivered them up to be destroyed by the violent and cunning Norman race.' Henry of Huntingdon's narrative covers one of the most exciting and bloody periods in English history: the Norman Conquest and its aftermath. He tells of the decline of the Old English kingdom, the victory of the Normans at the Battle of Hastings, and the establishment of Norman rule. His accounts of the kings who reigned during his lifetime – William I, Henry I, and Stephen – contain unique descriptions of people and events. Henry tells how promiscuity, greed, treachery, and cruelty produced a series of disasters, rebellions, and wars. Intwoven with memorable and vivid battle-scenes are anecdotes of court life, the death and murder of nobles, and the first written record of Cnut and the waves and the death of Henry I from a surfeit of lampreys. Diana Greenway's translation of her definitive Latin text has been revised for this edition.

Henry of Huntingdon's *History* is a major source for events in England and Normandy during his lifetime, including the Battle of Hastings, the reigns of William I, Henry I, and Stephen, written with panache and passion and embellished with anecdotes such as Henry's death from a surfeit of lampreys, and Cnut and the waves.

Robert Tombs's momentous *The English and Their History* is both a startlingly fresh and a uniquely inclusive account of the people who have a claim to be the oldest nation in the world.

The *Ecclesiastical History of the English People* (731 AD) is Bede's most famous work. A scholarly monk working in the north-east of England, Bede wrote the five books of the *History* in Latin. Starting with the invasion of Julius Caesar in the fifth century, he recorded the history of the English up to his own

The first volume of the Nobel Prize-winning prime minister's breathtaking history of Britain explores the birth of a great nation and world power. In the "wilderness" years after Winston S. Churchill unflinchingly guided his country through World War II, he turned his masterful hand to an exhaustive history of the country he loved above all else. And the world discovered that this brilliant military strategist was an equally brilliant storyteller. In 1953, the great man was awarded the Nobel Prize for Literature for "his mastery of historical and biographical description as well as for brilliant oratory in defending exalted human values." In this first of four volumes exploring the history of the United Kingdom, The Birth of Britain begins with Caesar's invasion in 55 BC, and continues through the establishment of the constitutional monarchy, the parliamentary system, and the people who played lead roles in creating democracy in England. The History of the English-Speaking Peoples series remains one of the most compelling and vivid collections of history ever written. "This history will endure; not only because Sir Winston has written it, but also because of its own inherent virtues—its narrative power, its fine judgment of war and politics, of soldiers and statesmen, and even more because it reflects a tradition of what Englishmen in the hey-day of their empire thought and felt about their
