The Honda VFR800
Interceptor is a
motorcycle

Access Free Honda Vfr

introduced by
Honda Motor
Company in 1998.
Before the
introduction of
the VFR800, the
VFR in 750cc
form had been
considered by
some to be the
best all-round
motorcycle money
could buy. The
original VFR750

Access Free Honda Vfr

was produced to follow the VF750, a machine with camshafts prone to failure.

~~Motorcycle Show~~

As I mentioned,
the VFR is
heavy, Honda
says 631 pounds,
ready to ride
(about 23 pounds
less for the
manual-trans
VFR). The VFR's

Access Free Honda Vfr

excessive weight, however, is more of a factor on the dirt than it is on the tarmac, where you don't notice it nearly as much. That's because the bike is well balanced and handles like a much smaller motorcycle.
