activity and which was once confined to only five States, has spread to almost all the States of India. Sericulture also creates gainful employment to women and aged people at homes with minimum risk. Thus, the analysis clearly establishes the importance of sericulture over other crops in the generation of fresh employment opportunities in rural areas. Further, as a predominant sector of rural development, stability is the vital need of sericulture enterprise. In the book, an attempt is made to understand the anthropological/sociological view of development. The book is interdisciplinary in
