This Book portrays God's calling of an Afro-American lad from the segregated Southern USA, in 1957, and elevated him and his wife, Dorothy, to become two of the most outstanding Black Pioneer Missionaries in World Missions, today! They have evangelized and planted churches in over 95 countries, and even more extensively, in the 23 countries where Christians in Action Missions has ministries. You will experience glimpses of fifty years of the Taylor's life and ministry, beginning with Elgin's call to missions in 1957, while in the USMarines. It Moves to their service as the First Black Missionaries to Japan, 1959-64; Elgin Pastored, studied Japanese, and attended

The University of Maryland, earned his BA degree, and later earned his MTh in California. Dorothy, a high school teacher, taught at Okinawa Christian School and ran the youth ministry. They transferred to Nigeria, Africa, but due to a civil war, were evacuated to London, England, where they founded a Bible College, an Evangelical Church, and directed CinA's Europe, Africa, and India Ministries for 15 years. Returning to America, 1980, they worked at the US Center for World Missions, Pasadena, CA with Dr Ralph Winters. In 1982, Elgin was elected CEO of CinA Missions International, (the only known Afro-American Director of a multi-ethnic, international, cross cultural ministry during this time). The book closes, with the spotlight on their present involvement in Ghana, West Africa, where they lead medical/outreach teams, build churches and schools, bore fresh water wells, and hold leadership seminars. They were appointed Chief and Queen Mother in the Broang Ahafo Region by the King, Ohmahene Okatakayie Kodom IV, in 2001. Today, they are blessed with much remaining fruit, in both the low places of the streets, to the palaces of Kings, to God be the Glory!

How hip-hop culture and graffiti electrified the art of Jean-Michel Basquiat and his contemporaries in 1980s New York In the early 1980s, art and writing labeled as graffiti began to transition from New York City walls and subway trains onto canvas and into art galleries. Young artists who freely sampled from their urban experiences and their largely Black, Latinx and immigrant histories infused the downtown art scene with expressionist, pop and graffiti-inspired compositions. Jean-Michel Basquiat (1960-88) became the galvanizing, iconic frontrunner of this transformational and insurgent movement in contemporary American art, which resulted in an unprecedented fusion of creative energies that defied longstanding racial divisions. *Writing the Future* features Basquiat's works in painting, sculpture, drawing, video, music and fashion, alongside works by his contemporaries--and sometimes collaborators--A-One, ERO, Fab 5 Freddy, Futura, Keith Haring, Koolhaas, LA2, Lady Pink, Lee Quiñones, Rammellzee and Toxic. Throughout the 1980s, these artists fueled new directions in fine art, design and music, reshaping the predominantly white art world and driving the now-global popularity of hip-hop culture. *Writing the Future*, published to accompany a major exhibition, contextualizes Basquiat's work in relation to his peers associated with hip-hop culture. It also marks the first time Basquiat's extensive, robust and reflective portraiture of his Black and Latinx friends and fellow artists has been given prominence in scholarship on his oeuvre. With contributions from Carlo McCormick, Liz Munsell, Hua Hsu, J. Faith Almiron and Greg Tate, *Writing the Future* captures the energy, inventiveness and resistance unleashed when hip-hop hit the city.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs
