Kittel C. Introduction To Solid State Physics 8 Th Edition ... CHAPTER 2 1. The crystal plane with Miller indices hka is a plane defined by the points a1/h, a2/k, and a3/k. (a) Two vectors that lie in the plane may be taken as  $a_1/h - a_2/k$  and  $a_1/h - a_3/k$ . But each of these vectors gives zero as its scalar product with  $G = hka$ , so that G must be perpendicular to the plane hka.

Introduction to Solid State Physics, 8th Edition Charles ... ABSTRACT. These are notes and solutions to Kittel and Kroemer's Thermal Physics. The solutions are (almost) complete: I will continuously add to subsections, before the problems in each chapter, my notes that I write down as I read (and continuously reread).
