This book focuses on the practical aspects of forest diseases and on practical measures to minimize damage and loss. Forest Pathology is a reference book that deals with the study of the problems and damage to forests due to: plant diseases, insects, fire, weather, and animals. It is both a forestry book and a plant pathology book. The first section deals with general topics and principles, including both abiotic causes and biotic causes such as fungi, bacteria, mycoplasmas, and viruses. The second section presents the details of particular forest diseases and offers practical management suggestions.

Junior Canadian Ranger Tommy Toner has a terrible secret. During the annual JCR summer camp in Whitehorse, Yukon Territory, he plays a prank which has unexpected and destructive results. Ashamed and afraid of what people will think, he keeps quiet, even though the guilt eats away at him. Tommy and his old friends Colly and Jaz team up to take part in a JCR competition at camp. They decide to search on horseback for the legendary Bushman, a Sasquatch-like creature who has been sighted near Whitehorse. But is the Bushman real or is he simply a terrifying creature of myth and legend? What Tommy and his friends discover puts all their lives in danger, and only the truth can save them.

Drawn to France to explore the myth of Saint Christopher and the "cynocephalus" or the dog-headed, Annja Creed finds herself repeatedly and inexplicably targeted by vicious mercenaries. Her best defense is to trace this brutal violence back to its source, which she soon discovers to be a millionaire and self-professed descendant of King Charlemagne. Original.

The TARDIS brings the Doctor and Martha to Balmoral in 1902. Here they meet Captain Harry Carruthers - friend of the new king, Edward VII. Together they head for the castle to see the king - only to find that Balmoral Castle is gone, leaving just a hole in the ground. The Doctor realises it is the work of the Judoon - a race of ruthless intergalactic mercenary space police. While Martha and Carruthers seek answers in London, the Doctor finds himself in what should be the most deserted place on Earth - and he is not alone. With help from Arthur Conan Doyle, the Doctor and his friends discover a plot to take over the world. With time running out, who will fall victim to the revenge of the Judoon? Featuring the tenth Doctor and Martha as played by David Tennant and Freema Agyeman in the acclaimed hit Doctor Who series from BBC Television.

In Learning with Information Systems the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.

She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. Whatever Fredmund Malik writes, carries weight. This book provides everything you need to know about effective management and day-to-day executive life - in terms that are concrete, practical and productive. The author answers the question of how executives can operate effectively and successfully and accomplish their organizational objectives. Now a classic among economics texts, this book contains the essential know-how for managers in both profit and not-for-profit sectors.

“ An honest, compelling, surprising, and vastly reassuring book about the spiritual life of women . . . This landmark book is spiritual precisely because it is authentic. ” —Joan Borysenko, Ph.D., author of *Minding the Body, Mending the Mind* With a foreword by Jean Shinoda Bolen, M.D. For many contemporary women, the old patriarchal models of religion are no longer relevant, forming a need to look beyond the male-oriented past to a wider, more fulfilling spiritual horizon. In this fascinating and thought-provoking book, Sherry Anderson and Patricia Hopkins show how many women have redefined traditional beliefs and rediscovered their own unique spiritual heritage—*The Feminine Face of God*. Anderson and Hopkins guide you through the sacred garden of:

- Childhood—seedbed of life's sacred passage
- Leaving home—finding your own inner authority
- Relationships—new perspectives on intimacy
- Spiritual practice—the importance of guidance and discipline
- Sexuality—a wild card constantly cracking open the heart
- And much more

As women enter their sacred garden and learn the art of inner listening, they acquire the tools for living, loving, and praying authentically. In *The Feminine Face of God* there are seeds for growth: for creating and sustaining intimacy and love in a new way; for a new understanding of sexuality; for a new vision of family, a family of choice in a community of love.

Using our favourite Springfield family as a case study, *Watching with The Simpsons* examines the textual and social role of parody in offering critical commentary on other television programs and genres. Jonathan Gray brings together textual theory, discussions of television and the public sphere, and ideas of parody and comedy. Including primary audience research, it focuses on how *The Simpsons* has been able to talk back to three of television 's key genres - the sitcom, adverts and the news - and on how it holds the potential to short-circuit these genre 's meanings, power, and effects by provoking reinterpretations and offering more media literate recontextualizations. Examining television and media studies theory, the text of *The Simpsons*, and the show 's audience, Gray attempts to fully situate the show 's parody and humour within the lived realities of its audiences. In doing so, he further explores the possibilities for popular entertainment television to discuss issues of political and social importance. A must read for any student of media studies.
