Citizens pay their taxes to help local government finance and deliver an array of essential public goods that private markets do not, can not and will not provide. These goods include, in addition to building common infrastructure and delivering vital welfare services, the costs of regulating competition in private markets, as well as the costs of sponsoring cooperation in civil society.

What is local government for? | Public Finance

Local government finance. Much of the power to raise taxes and allocate public spending is held by central government. However, some powers are delegated to local authorities. The IFS has analysed tax and spending at these local levels, both to inform policy and address more fundamental questions about the effects of local tax and spending systems on outcomes of interest.
