• NANT Study Guide ATTENTION CANDIDATES This handbook contains necessary information about the NNCO Certification Examination for Dialysis Water Specialists. It is required reading for those applying and testing for the Examination. All individuals applying for these examinations must comply with the policies.

Candidate Handbook 2020 - PTCNY
Your dialysis center will test your blood to make sure enough wastes are removed. The main test used to measure your dialysis dose is called Kt/V (pronounced 'kay tee oov vee'). Another test used by some centers is called urea reduction ration (URR). For hemodialysis patients, Kt/V should be at least 1.2 and URR should be at least 65 percent.

Coping Effectively: A Guide for Patients and their ...
Dialysis is a procedure to remove waste products and excess fluid from the blood when the kidneys stop working properly. It often involves diverting blood to a machine to be cleaned. Normally, the kidneys filter the blood, removing harmful waste products and excess fluid and turning these into urine to be passed out of the body.
