Upcoming building legislation - Designing Buildings Wiki

An example of a special tax in the construction industry is the building deduction tax. This is a form of taxation designed to curb illegal employment in the construction industry. According to this law, commercial owners of construction services are obliged to withhold 15% of the invoice amount and pay it to the tax authority.

Construction & Engineering Law 2020 | Germany | ICLG

This construction is similar to the timber floor above, but uses either pre-cast concrete planks or small pre-cast concrete beams with concrete blocks laid between the beams. They can normally span greater distances than timber joists. Ventilation is required in the same way as a suspended timber floor.

Building Regulations: Flooring | Extensions | Planning Portal

The legislation. The principal piece of legislation affecting construction is also one which applies to industry as a whole. The Health and Safety at Work, etc Act 1974 (HSWA) came into force in 1974 and places a duty on all employers [to ensure, so far as is reasonably practicable, the health, safety and welfare at work] of all their employees, and persons working on their premises.
