New 7th Edition! Powerful resource for interactive, simulation-based teaching and learning! The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). The course is designed to teach an evidence-based approach to resuscitation of the newborn to hospital staff who care for newborns at the time of delivery. New in the 7th edition! Text updated to reflect the 2015 AAP/AHA Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care of the Neonate Two new chapters added covering post-resuscitation care and preparing for resuscitation 140+ new full-color photographs replacing most line drawings

Disorders of the Neonatal Airway serves as a comprehensive, multidisciplinary resource for all practitioners who care for neonates with airway disorders. With the evolution of advances in neonatology and neonatal airway care over the past three decades, the survival rate and life expectancy of premature newborns have dramatically increased to well over 50% in 24-25 week gestation infants. Unfortunately, survival with long-term intubation has

brought a corresponding increase in acquired airway disorders needing collaborative high level neonatal and otolaryngological care. Additionally, with the advent of fetal therapy, congenital airway disorders now make up a substantial number of neonates with complex airway disorders. Because of this fact, there has been increased focus on the multidisciplinary evaluation and management of neonatal airway disorders. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality. As one of the only comprehensive resources on the topic, Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway. This unique approach makes this reference a must read for practitioners from many disciplines. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality. Review Guides/Certification Prep/Pocket Guides

The STABLE Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. This learner manual serves as a student handbook for either self-study or instructor-led presentations. It includes more than 220 pages, illustrated in full color.

Fetal and Neonatal Secrets by Drs. Richard Polin and Alan Spitzer, uses the success formula of the highly popular Secrets Series to offer fast answers to the most essential clinical questions in fetal and neonatal medicine. With its user-friendly Q&A format, practical tips from neonatologists and fetal medicine experts, and "Key Points" boxes, this portable and easy-to-read medical reference book provides rapid access to the practical knowledge you need to succeed both in practice and on board and recertification exams. "Fetal and Neonatal Secrets is a book with an alternative setup that offers answers to a wide spectrum of clinical questions in the field of fetal and neonatal medicine. The book covers both fetal and neonatal medicine, and could be relevant for junior doctors aiming to become obstetricians or pediatricians." Reviewed by: Acta Obstetrica et Gynecologica Scandinavica, January 2015 Get the evidence-based guidance you need to provide optimal care for your fetal and neonatal patients. Zero in on key fetal and neonatal information with a question and answer format, bulleted lists, mnemonics, and practical tips from the authors. Enhance your reference power with a two-color page layout, "Key Points" boxes, and lists of useful websites. Review essential material efficiently with the "Top 100 Secrets in Fetal and Neonatal Medicine" – perfect for last-minute study or self-assessment. Apply all the latest pediatric advances in clinical fetal neonatology techniques, technology, and pharmacology

Many tens of thousands of preservice and inservice teachers have relied on this highly regarded text from leading experts, now in a revised and updated sixth edition. The latest knowledge about literacy teaching and learning is distilled into flexible strategies for helping all PreK–12 learners succeed. The book addresses major components of literacy, the needs of specific populations, motivation, assessment, approaches to organizing instruction, and more. Each chapter features bulleted previews of key points; reviews of the research evidence; recommendations for best practices in action, including examples from exemplary classrooms; and engagement activities that help teachers apply the knowledge and strategies they have learned. New to This Edition *Incorporates the latest research findings and instructional practices. *Chapters on new topics: developmental word study and the physiological, emotional, and behavioral foundations of literacy learning. *Chapters offering fresh, expanded perspectives on writing and vocabulary. *Increased attention to timely issues: classroom learning communities, teaching English learners, and the use of digital tools and multimodal texts.

Physical Assessment of the Newborn, 5th Edition, is a comprehensive text with a wealth of detailed information on the assessment of the newborn. This valuable and essential resource illustrates the principles and skills needed to gather assessment data systematically and accurately, and also provides a knowledge base for interpretation of this data. Coverage addresses: gestational assessment, neurologic assessment, neonatal history, assessment of the dysmorphic infant, and systemic evaluation of individual body systems, as well as key information on behavioral and pain assessment, including the use of specific tools with various groups ranging from term to extremely preterm infants. Numerous tables, figures, illustrations, and photos, many of them in full color, are a major strength that enhances the book's usefulness as a clinical resource. The text is an excellent teaching tool and resource for anyone who performs newborn examinations including nurses, neonatal and pediatric nurse practitioners, nurse-midwives, physicians and therapists. It can also serve as a core text for any program preparing individuals for advanced practice roles in neonatal care. **KEY FEATURES:** An authoritative and renowned text that comprehensively addresses all key aspects of newborn assessment Provides a well-ordered evaluation of individual body systems. Assists the practitioner in identifying infant state, behavioral clues, and signs of pain, facilitating individualized care. Comprehensively addresses the tremendous range of variation among newborns of different gestational ages. The content is amplified by numerous photos and illustrations, many in full color Includes Power Point slides and an Image Bank

The 2nd Edition of Reconceptualizing Literacy in the New Age of Multiculturalism and Pluralism honors the genius of Dr. Peter Mosenthal. His contributions to the field of literacy were unprecedented. Many described him as a superb researcher who never lost sight of the purpose of education. He made us laugh as he led us in a nursery rhyme song during his National Reading Conference (LRA) Presidential Address and made us think as he explained the significance of educational implications in all research articles. He also mentored and taught graduate students in gentle and carefully attentive ways, showing his respect and appreciation for the work of each individual in the field. He was a remarkable person. The second edition of this book includes many experienced and new scholars from around the world. Qualitative and quantitative research methodologies are scattered throughout and the practical and theoretical are well represented. New Literacies and Global Perspectives are added sections in this volume. In this era of the "Common Core", Reconceptualizing Literacy in the New Age of Multiculturalism and Pluralism, presents a rational educational balance for literacy development across the curriculum.
