The following list contains regulations, policy memos, and other guidance materials relating to the nutrition standards for the National School Lunch Program and School Breakfast Program. Regulations Final Rule: Child Nutrition Program Flexibilities for Milk, Whole Grains, and Sodium Requirements

~~Nutrition Standards for School Meals | USDA FNS~~

Standards for food, fluid and nutritional care Food, fluid and nutrition are fundamental to health and wellbeing, and therefore fundamental to quality and safety in healthcare. These standards replace the previous 'Clinical Standards for Food, Fluid and Nutritional Care in hospitals' published by NHS Quality Improvement Scotland in 2003.

~~Food, fluid and nutritional care standards~~

Nutrient-based standards include recommendations for energy, protein, carbohydrate, non-milk extrinsic sugars (NMES), fat, saturated fat, fibre (NSP), sodium, vitamin A, vitamin C, folate, calcium, iron and zinc. Food based standards are used as this is considered easier to understand and easier to plan appealing and creative menus for pupils.
