Queercore is a queer and punk transmedia movement that was instigated in 1980s Toronto via the pages of the underground fanzine ("zine") J.D.s. Authored by G.B. Jones and Bruce LaBruce, J.D.s. declared "civil war" on the punk and gay and lesbian mainstreams, consolidating a subculture of likeminded filmmakers, zinesters, musicians and performers situated in pointed opposition to the homophobia of mainline punk and the lifeless sexual politics and exclusionary tendencies of dominant gay and lesbian society. More than thirty years later, queercore and its troublemaking productions remain under the radar, but still culturally and politically resonant. This book brings renewed attention to queercore, exploring the homology between queer theory/practice and punk theory/practice at the heart of queercore mediamaking. Through analysis of key queercore texts, this book also elucidates the tropes central to queercore 's subcultural distinction: unashamed sexual representation, confrontational

politics and "shocking" embodiments, including those related to size, ability and gender variance. An exploration of a specific transmedia subculture grounded in archival research, ethnographic interviews, theoretical argumentation and close analysis, Queercore proffers a provocative, and tangible, new answer to the long-debated question, "What does it mean to be queer?"

The Queer Art of Failure is about finding alternatives - to conventional understandings of success in a heteronormative, capitalist society; to academic disciplines that confirm what is already known according to approved methods of knowing; and to cultural criticism that has extensively theorized hegemony but paid little attention to counter-hegemony. Judith Halberstam proposes "low theory" as a means of recovering ways of being and forms of knowledge not legitimized by existing systems and institutions. Low theory is derived from eccentric archives. It runs the risk of not being taken seriously. It entails a willingness to fail and to lose one's way. Tacking back and forth between high theory and low theory, high culture and low culture, Halberstam looks for the unexpected and subversive in popular culture, avant-garde performance, and queer art. She pays particular attention to animated children's films, contending that new forms of animation, especially CGI, have generated narratives filled with unexpected encounters between the childish, the transformative, and the queer. Dismantling contemporary logics of success, Halberstam demonstrates that failure sometimes offers more creative, cooperative, and surprising ways of being in the world.

Popular music has always been a dynamic mediator of gender and sexuality, and a productive site of rebellion, oddity and queerness. The transformative capacity of music-making, performance and consumption helps us to make sense of identity and allows us to glimpse otherworldliness, arousing the

political imagination. With an activist voice that is impassioned yet adherent to scholarly rigour, "Playing it Queer" provides an original and compelling ethnographic account of the relationship between popular music, queer self-fashioning and (sub)cultural world-making. This book begins with a comprehensive survey and critical evaluation of relevant literatures on queer identity and political debates as well as popular music, identity and (sub)cultural style. Contextualised within a detailed history of queer sensibilities and creative practices, including camp, drag, genderfuck, queercore, feminist music and club cultures, the author's rich empirical studies of local performers and translocal scenes intimately capture the meaning and value of popular musics and (sub)cultural style in everyday queer lives.

A history of French homosexuals since 1942 in the interconnected realms of law, politics and the media, with a focus on the complex relationship between French republican values and the possibilities they have offered for change in each of these three spheres.

In Hito Steyerl's writing we begin to see how, even if the hopes and desires for coherent collective political projects have been displaced onto images and screens, it is precisely here that we must look frankly at the technology that seals them in. *The Wretched of the Screen* collects a number of Steyerl's landmark essays from recent years in which she has steadily developed her very own politics of the image. Twisting the politics of representation around the representation of politics, these essays uncover a rich trove of information in the formal shifts and aberrant distortions of accelerated capitalism, of the art system as a vast mine of labor extraction and passionate commitment, of occupation and internship, of structural and literal violence, enchantment and fun, of hysterical, uncontrollable flight through the wreckage of postcolonial and modernist discourses and their unanticipated openings. e-flux journal

Intimate Ephemera is the first major study of autobiographical writing produced and consumed in a youth subculture. Investigating the uses of the zine form for life writing, it examines the recurrent themes in texts circulating in Australian zine culture, including depression, consumerism, popular culture and political identity. Intimate Ephemera also examines zine culture as a unique community of life writing and reading, where handmade texts circulate in an economy of gifting and exchange utilising the postal system. The book analyses the material diversity of zines as handmade objects, examining the use of the photocopier and craft techniques in these limited edition publications, bringing a focus to the role of the text-object in communicating personal experience.

The first monograph to critically engage with the controversial horror film subgenre known as 'torture porn', this book dissects press responses to popular horror and analyses key torture porn films, mapping out the broader conceptual and contextual concerns that shape the meanings of both 'torture' and 'porn'.

Micro Bionic is an exciting survey of electronic music and sound art from cultural critic and mixed-media artist Thomas Bey William Bailey. This superior revised edition includes all of the original supplements neglected by the publishers of the first edition, including a full index, bibliography, additional notes / commentary and an updated discography. As the title suggests, the unifying theme of the book is that of musicians and sound artists taking bold leaps forward in spite of (or sometimes because of) their financial, technological, and social restrictions. Some symptoms of this condition

include the gigantic discography amassed by the one-man project Merzbow, the drama of silence enacted by onkyo and New Berlin Minimalism, the annihilating noise transmitted from the humble laptop computers of Russell Haswell and Peter Rehberg and much more besides. Although the journey begins in the Industrial 1980s, in order to trace how the innovations of that period have gained greater currency in the present, it surveys a wide array of artists breaking ground in the 21st century with radical attitudes and techniques. A healthy amount of global travel and concentrated listening have combined to make this a sophisticated yet accessible document, unafraid to explore both the transgressive extremes of this culture and the more deftly concealed interstices thereof. Part historical document, part survival manual for the marginalized electronic musician, part sociological investigation, *Micro Bionic* is a number of different things, and as such will likely generate a variety of reactions from inspiration to offense. Numerous exclusive interviews with leading lights of the field were also conducted for this book: William Bennett (Whitehouse), Peter Christopherson (r.i.p., Throbbing Gristle / Coil), Peter Rehberg, John Duncan, Francisco Lopez, Carl Michael von Hausswolff, Bob Ostertag, Zbigniew Karkowski and many others weigh in with a diversity of thoughts and opinions that underscore the incredible diversity to be found within new electronic music itself."

"Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bong é , Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lo ï s Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C.
