As usual I have included the three key file types. SVG - This is an image file type that can also be used by most home hobby cutting machines including the Cricut and the eCraft although some machines will require the file to be converted in external software before it can be used for cutting. DXF - A vector based file type that can be used by most home hobby cutting machines. In particular this file type can be used with the Silhouette range of cutting machines in their free software.

Folded Rosette Cutting Files (SVG, DXF and FCM ...
