## BIOSTAT B | Sartorius

As a result, Biostat® A does not require any manual adjustment of flow meters and therefore eliminates problems with pulsed aeration. Setting up the bioreactor is straightforward: Just connect the aeration tubing, configure the aeration profile, enter the DO setpoint – that's it! For cell culture applications, interfaces for four gases (air, O<sub>2</sub>, CO<sub>2</sub> and N<sub>2</sub>) are available for DO

## Biostat® A - Entry-level Bioreactor & Fermenter | Sartorius

The Biostat®B is a compact benchtop fermentor with autoclavable culture vessels. With vessels having working volumes of 2l, 5l or 10l, the Biostat®B supports both microbial and cell culture applications. The bioprocess capabilities of the Biostat®B include batch, fed-batch and continuous processes alike.
