In color throughout, Illustrated Manual of Injectable Fillers clearly evaluates the uses, limitations, and compositions of the growing variety of available fillers involved in face and body rejuvenation. It includes detailed techniques for the facial analysis and diagnosis of aging conditions. This resource helps you provide your patients with safe, reliable, and aesthetically pleasing results, including preventing and properly treating potential complications of filler usage. Clearly organized by anatomy, the book discusses the specific analysis, diagnosis, and treatment for the upper face, midface, lower face and neck, hands, and the torso (after liposuction). It is an excellent introduction for novices performing volume restoration procedures and an invaluable guide to novel techniques and advanced procedures for experienced physicians.
