Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Over many miles and years, Rob Brooks has seen and experienced quite a bit of life. Rob's love of his family and his friends, of motorcycling and his God have afforded him opportunities to connect with a wide variety of people. These pages reflect a small portion, a window as it were, into the past 10+ years of his life. Rob is no one special, no one famous. Just a regular guy who loves life, and wants to experience as much of it as God might allow. Along the way, the observations, the wisdom gleaned from others, and the insights he has gained are worth passing on, in his estimation. We hope you will agree. May you be encouraged, challenged, amused, and inspired by the thoughts, reflections, and experiences of this "everyman." And maybe join him out on the road somewhere...
