The End of Ignorance: Multiplying Our Human Potential. A revolutionary call for a new understanding of how people learn. The End of Ignorance conceives of a world in which no child is left behind – a world based on the assumption that each child has the potential to be successful in every subject. John Mighton argues that by recognizing the barriers that we have experienced in our own educational development, by identifying the.

The End of Ignorance conceives of a world in which no child is left behind – a world based on the assumption that each child has the potential to be successful in every subject. John Mighton argues that by recognizing the barriers that we have experienced in our own educational development, by identifying the moment that we became disenchanted with a certain subject and forever closed ourselves off to it, we will be able to eliminate these same barriers from standing in the way of our ...

*The End of Ignorance: Multiplying Our Human Potential ...*

In every country of the world, schools are based on a model of education in which, in any given subject, only a minority of students are expected to naturally love or excel at learning. But that leaves behind a majority of students. If we are ever to nurture the full potential of children, by raising a generation of students who not only appreciate the elegance and beauty of nature, but who ...
