His expertise on nearly all of the peoples the Vikings encountered ...

The Vikings | The Great Courses

So in the Viking Age Ireland possessed great, learned, clan-supported monasteries surrounded by chieftain-led tribes. Norse Vikings devastated the monasteries, dominated the river systems and coastal ports, and co-opted local chieftains, transforming Ireland into a hub for the slave trade to Muslim Spain.

History of the Vikings - The Great Courses Plus

I found that the feature on the Vikings including the photos and map were helpful in summarizing and providing a great and very broad view of the entire set of lectures. Date published: 2020-05-21 Rated 5 out of 5 by Mike and Eva from Well documented Dr. Harl talks fast and has a habit of saying, "None the less".

The Great Courses series is generally fantastic on a wide range of topics, and this particular course is no exception. I am blown away at how much I learned in a relatively short amount of time. I've come to respect the Vikings' place in history, even if I can't always respect how they secured it.

As explorers and traders, the Vikings played a decisive role in the formation of Latin Christendom, and particularly of Western Europe. In this course the Vikings will be studied not only as warriors, but also in other roles for which they are equally extraordinary: merchants, artists, kings, raiders, seafarers, shipbuilders, and creators of a remarkable literature of myths and sagas.

How was the North Atlantic settled? How did the distinct cultures of medieval Iceland and Greenland come to be? Viking Nations is an interdisciplinary consideration of medieval North Atlantic settlement that focuses on not only site-related identity but also the active choices made to adopt elements of identity. It utilizes comparative analysis of evidence to highlight terrestrial and marine drivers to identity development in relation to the site context. By adopting this approach it is possible to more closely examine not only the settlement of the North Atlantic but also the apparent taming of the Vikings concurrently taking place. This book illustrates the priorities expressed by medieval settling populations in relation to particular contexts. It proposes a method for planning ships cargos which corresponds to identity development amongst the constituent Atlantic archipelagos. This work is written for an educated audience desiring to know more about the medieval North Atlantic beyond Viking stereotypes. Enough detail is included that medieval specialists will also enjoy the book."

Kieran Ó Brannon is no ordinary slave-defiant, daring and dangerous, he is untamable! Iseult MacFergus is drawn to this powerful man with the strength of a warrior and the honor of a king. She trusts him to help find her lost child... Kieran sold himself into slavery to save his brother's life, but Iseult, with the face of an angel, gives him hope that he can again be a free man. Determined to find her child, Kieran may finally have his freedom--although now his heart is tied to Iseult's forever...

Harl tells the story of the complex relationships between imperial Rome and the native peoples they conquered as they intermarried, exchanged ideas and mores, and, in the ensuing provincial Roman cultures, formed the basis of Western European civilization.

Written by a senior scholar and master mariner, Sailors and Traders is the first comprehensive account of the maritime peoples of the Pacific. It focuses on the sailors who led the exploration and settlement of the islands and New Zealand and their seagoing descendants, providing along the way new material and unique observations on traditional and commercial seagoing against the background of major periods in Pacific history. The book begins by detailing the traditions of sailors, a group whose way of life sets them apart. Like all others who live and work at sea, Pacific mariners face the challenges of an often harsh environment, endure separation from their families for months at a time, reverse their vessels, and share a singular attitude to risk and death. The period of prehistoric seafaring is discussed using archaeological data, interpretations from interisland exchanges, experimental voyaging, and recent DNA analysis. Sections on the arrival of foreign exploring ships centuries later concentrate on relations between visiting sailors and maritime communities. The more intrusive influx of commercial trading and whaling ships brought new technology, weapons, and differences in the ethics of trade. The successes and failures of Polynesian chiefs who entered trading with European-type ships are recounted as neglected aspects of Pacific history. As foreign-owned commercial ships expanded in the region so did colonialism, which was accompanied by an increase in the number of sailors from metropolitan countries and a decrease in the employment of Pacific islanders on foreign ships. Eventually small-scale island entrepreneurs expanded interisland shipping, and in 1978 the regional Pacific Forum Line was created by newly independent states. This was welcomed as a symbolic return to indigenous Pacific ocean linkages. The book's final sections detail the life of the modern Pacific seafarer. Most Pacific sailors in the global maritime labor market return home after many months at sea, bringing money, goods, a wider perspective of the world, and sometimes new diseases. Each of these impacts is analyzed, particularly in the case of Kiribati, a major supplier of labor to foreign ships.

A leading artificial intelligence researcher lays out a new approach to AI that will enable people to coexist successfully with increasingly intelligent machines.

An exhilarating Viking saga filled with the rich history, romantic adventure and political intrigue that have made Diana Gabaldon's Outlander, George R. R. Martin's Game of Thrones, as well as Phillipa Gregory's historical fiction and Neil Gaiman's Norse Mythology popular bestsellers. Six years after The Half-Drowned King, Ragnvald Eysteinnsson is now king of Sogn, but fighting battles for King Harald keeps him away from home, as he confronts treachery and navigates a political landscape that grows more dangerous the higher he rises. Ragnvald's sister Svanhild has found the freedom and adventure she craves at the side of the rebel explorer Solvi Hunthiofsson, though not without a cost. She longs for a home where her quiet son can grow strong, and a place where she can put down roots, even as Solvi's ambition draws him back to Norway's battles again and keeps her divided from her brother. As a growing rebellion unites King Harald's enemies, Ragnvald suspects that some Norse nobles are not loyal to Harald's dream of a unified Norway. He sets a plan in motion to defeat all of his enemies, and bring his sister back to his side, while Svanhild finds herself with no easy decisions, and no choices that will leave her truly free. Their actions will hold irrevocable repercussions for the fates of those they love and for Norway itself. The Sea Queen returns to the fjords and halls of Viking-Age Scandinavia, a world of violence and prophecy, where honor is challenged by shifting alliances, and vengeance is always a threat to peace.

Courtney, Norah, and Raine Cassel are as different as three sisters can be. Norah, the oldest, is a type A obsessive who hasn't forgiven Raine, the middle sister, for ruining her wedding day six years ago. Raine is Norah's opposite, a wild child/performance artist/follow-your-bliss hippie chick who ran off to California. The only thing the two have in common is their ability to drive Courtney, their youngest sister, crazy. When her longtime boyfriend proposes, Courtney decides it's finally time to call a truce and bring the three sisters together. After all, they're grown-ups now, right? But it turns out that family ghosts aren't easily defeated--and neither are first loves. Soon Courtney finds herself reexamining every choice she has made in the past six years--including the man she's about to marry--and the value of reconnecting with the sisters she knows she needs, in spite of everything.
