TOMTOM GPS MAPS -

[tomtomgopre.com](http://tomtomgopre.com)

A quick start with TomTom

QuickGPSfix™ Your TomTom device uses the signals of at least 4 satellites to find out where you are. To start navigating, it needs to know exactly where each satellite is. So start your journey faster with TomTom QuickGPSfix™.

TomTom QuickGPSfix Update Tool - GPS Power

Just connect your TomTom GPS device to the internet-enabled personal computer using a USB cord and then turn on the device. The TomTom device will carry out a quick system update process on its own. On the next step, it will show you a pop-up on the computer screen and then you will see a drive window downloading the updates for the device. STEP 2

Do you use a satnav or smartphone satnav app? If so, *How to Get More from Your Satnav* is for you. This unique exploration of the satnav, by an experienced professional driver, provides a penetrating analysis of the difficulties and problems associated with using it. In addition, a wealth of practical advice is offered and many fascinating insights. The 'bells and whistles' associated with satnavs are avoided and instead author Bob Scanlon concentrates on

straightforward road navigation. • The problem of arriving at the wrong destination is given an in-depth consideration and a simple practical solution offered. • Route planning is explored and a range of techniques are proposed to help. • Pointers are provided to advanced routing. • How you use your satnav on the move is a much neglected area of concern and guidance and advice is provided here too. • A review of a high specification satnav with HD live traffic is included and lastly, the satnav as a concept is evaluated. This is a sorely needed contribution to the practice of road navigation and provides an invaluable guide to getting more from your satnav.
