In my opinion, the transmission fluid should be changed every 50,000 miles or about once every two years. This number is a rough estimate, and may vary depending upon your use of your VW (track vs. street). There are many moving parts in the transmission. These moving parts have a tendency to drop small microscopic metal particles into the oil.

I prefer to use a pump and pump the transmission full but some oil containers can be poured straight in without too much of a mess. Fill the transmission until it starts to flow back out the fill hole. When the oil is level with fill hole it is full. The transmission should take between 2.1 and 2.2 quarts. Reinstall the fill plug and you are done.
