During the fifties the Cold War grew around us. Insidious, it rose to a crescendo in October of 1962 when John Kennedy proved the concept of peace by maintaining overwhelming deterrence. The men who provided this deterrence were professionals who believed in the righteousness of their country and the honor of its leaders. In the decades that followed that honor eroded. For whatever misguided reason Lyndon Johnson chose to escalate American presence in Vietnam even though Kennedy chose to pursue a policy of withdrawal prior to his assassination. Our professional military was not privy to the political maneuvering that was taking place, as Johnson was lying to the American public about the Vietnam buildup. We began covert ground and air operations in 1964. These operations were denied by the government but escalated continuously to the end of the war, with covert operations continuing for some years after the peace agreements. After the 'ghost attacks' by North vietnamese gun boats on August 4, 1964 congress passed the Gulf of Tonkin Resolution, abdicated its Constitutional duty to make any declaration of war and handed that decision to the President. This step, incidentally, deprived the American fighting man the legal protection of the Geneva Convention. This book reflects the attitude of the professionals who were tasked with prosecuting this war. I have chosen three incidents that I was personally familiar with and researched them in detail. They are the shoot down of Whaler Five Seven, Red Marker Four and Owl Seven. We have learned nothing from the mistakes of this war.

**ACROSS THE DARK ISLANDS** The War in the Pacific Floyd W. Radike Brigadier General, U.S. Army (Ret.) “I remember sitting in a foxhole on Guadalcanal in the rain. The sergeant I shared the hole with shook his head and asked me: ‘What in the hell are we doing on this godforsaken island? Why don’t we let the Japs keep this stinking rock?’ I didn’t have an answer.” The war in the Pacific has never been portrayed more honestly—or in prose more powerful—than in *Across the Dark Islands*. In this unflinching account, Brig. Gen. Floyd W. Radike remembers how he started his military career in the mud and mayhem of Guadalcanal, fighting a campaign as crucial to the war’s outcome as it was chaotic and cruel. Here is no whitewashed view of that war or the men who waged it. Here instead is the sobering story of a junior officer in a National Guard unit suddenly shipped off to the front lines, disdained by “regular army” elitists who served beside him, and given second-class status so that others could earn headlines and promotions. While struggling to survive amid dirt and disease, routine and monotony, Radike endured harrowing missions incompetently, arrogantly, or just impatiently planned. As no book ever has, *Across the Dark Islands* reveals shocking details removed from myth and sentimentality: how American commanders were intimidated by the Japanese stereotype of fearlessness, night attacks, and cries of “banzai” . . . how imitations of John Wayne heroics caused immediate death . . . threats of court-martial quieted accusations of Army injustice . . . and panic and flight destroyed a fight for the enemy’s Munda Field airstrip, an event that “disappeared from the record and appears in no official history.” Emerging from the hellish conditions and military miscalculations is a tribute to common sense, courage, and respect for proper procedure, attributes that would help the author and soldiers like him to save their lives, succeed in battle, and win the war. From Guadalcanal to the Philippines to a planned invasion of Japan ended by the atom bomb, General Radike’s experience spanned the entire course of the pivotal Pacific theater conflict. Candid and cautionary, his memoir is an important work whose writing rivals that of classic novels like James Jones’s *The Thin Red Line* and Norman Mailer’s *The Naked and the Dead*. It should be read by anyone looking to join an army or wage a war.

“Daring, dazzling . . . A tough, funny, heart-breaking book” by the National Book Award–nominated author of *An Unnecessary Woman* (The Seattle Times). Detailing the impact of the AIDS epidemic in America and the Lebanese civil war in Beirut on a circle of friends and their families during the 1980s and 1990s, this “absolutely brilliant” novel mines the chaos of contemporary experience, telling the stories of characters who can no longer love or think except in fragments (Amy Tan). Clips and quips, vignettes and hallucinations, tragic news reports and hilarious short plays, conversations with both the quick and the dead, all shine their combined lights to reveal the way we experience life today in the debut novel of the author Michael Chabon calls “one of our most daring writers.” “A provocative, emotionally searing series of connected vignettes . . . For a nonlinear novel the images chosen retain a remarkable cohesion. Often sexually frank or jarringly violent, they merge into a graphic portrait of two cultures torn from the inside.” —Publishers Weekly “[A] refreshing statement of honesty and endurance . . . Funny, brave, full of heart and willing to say things about war and disease, sexual and cultural politics that have rarely been said so boldly or directly before.” —The Oregonian “Rabih Alameddine is one rare writer who not only breaks our hearts but gives every broken piece a new life.” —Yiyun Li

Passionate, vigorous and uncompromising this book takes the lid off the confused Western response to the Balkan war. The author raises a series of timely and acute questions about the future of postmodernism and postcommunism. The author claims that the Balkan war has de-railed the movement for unification in Europe. The Islamic world has seen that the West is quite willing to bomb Muslim targets, from Iraq to Somalia, but absolutely unwilling to wage a ‘just war’ to save the Bosnian Muslims. He concludes that the Balkan war is a key catalyst in the unravelling of the West.
